YuJa

YuJa Panorama for Digital Accessibility

Seamlessly make digital content more accessible

Accessible Content Enables Every Learner to Succeed

YuJa Panorama automatically improves the accessibility of digital media and course content. Panorama brings market-leading Artificial Intelligence and Machine Learning capabilities into the digital accessibility process.

Panorama automatically generates accessible versions of all uploaded documents. This enables users to simple click on the Accessible Versions menu and select their preferred format to review. Accessible formats automatically generated by Panorama include:

- HTML
- Plain Text
- Text-to-Speech
- Electronic Braille
- High Contrast
- Tagged PDF
- Audio Podcast
- Downloadable EPUB

Leverage Automation to Drive Inclusive Design

YuJa Panorama helps organizations improve the learning experience by driving inclusivity as a key – and measurable – objective when creating digital course content.

Create Accessible Versions

Auto-create accessible alternative formats

Real-Time Scorecards

Reporting on accessibility journey

LMS Integration

Seamless integration in all major LMS platforms

Institutional Reporting

Comprehensive institution and instructor reporting

Visual Accessibility Scores

Inline visual accessibility gauge and score

Automated Instructor Feedback
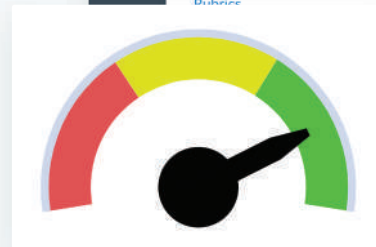

Guided accessibility tutorials and feedback

YuJa

Seamless Integration With All Major Lms Platforms

Our LTI and native API-level integration for all major Learning Management Systems (LMSs) help your instructors ensure they are providing accessible course content to their students. Instructors simply login to their course-site and prepare their course materials.

From here, Panorama seamlessly generates multiple accessible variants of the course-material in the background – including HTML, Electronic Braille, EPUB, Audio (Speech-to-Text), High Contrast, and Tagged PDF files.

# Visual Accessibility Gauge Right Next to the File

Providing quality content for students and keeping up with ever-changing accessibility standards remains the primary concerns for instructors. YuJa Panorama makes it easy for Instructors to measure the accessibility of their course content with the Accessibility Gauge. The Accessibility Gauge provides a colored representation of the Accessibility.

Accessibility according to the following legend:

Red – Severe accessibility Issues

Yellow – Somewhat accessible, but still contains significant issues

Green – Minor or no accessibility issues to correct

Review and Report Accessibility Across Your Organization

Instructors and Administrators are provided with a variety of reports to help measure the level of accessibility and track trends over time including:

Course Report

Measure the accessibility of content within a particular course

Instructor Report

Understand the level of accessibility an instructor provides across all of their courses

Institution Report

Identify macro-trends related to accessibility across your organization

Accessibility Gauge

Offers a colored representation of the overall level of accessibility at the individual content level and course level

An integrated enterprise video platform to fit any organization
