

# YuJa DocAssist Accessibility Module

## Human-Based Accessibility Review and Remediation

The image displays a central screenshot of the 'Accessibility Remediation Request' interface. The window title is 'Accessibility Remediation Request' with a close button (X) and a link to 'Literary\_Theory.pdf'. Below the title, there is a 'Review Details' section with a status of 'Awaiting Review' and a dropdown arrow. The main content area is divided into 'Review' and 'Upload' tabs. The 'Review' tab is active and contains the following text: 'Get help from a YuJa Accessibility Expert to remediate accessibility issues.' followed by instructions: 'Approve Request sends the document to a YuJa accessibility expert for remediation. Reject Request permanently closes the request and cannot be undone.' and 'Select Approve Request to continue, or Reject Request to decline.' At the bottom of the review section are two buttons: 'Reject Request' (outlined in red) and 'Approve Request' (solid dark blue). At the very bottom of the window are links for 'Help' and 'Terms of Use'. Surrounding the central screenshot are several rounded square icons representing different file formats: DOC (light blue), HTML (orange), PPT (red), XLS (green), and PDF (orange). A 'Feedback' button is also visible on the right side of the screenshot.

# Custom Accessible Format Requests Made Simple

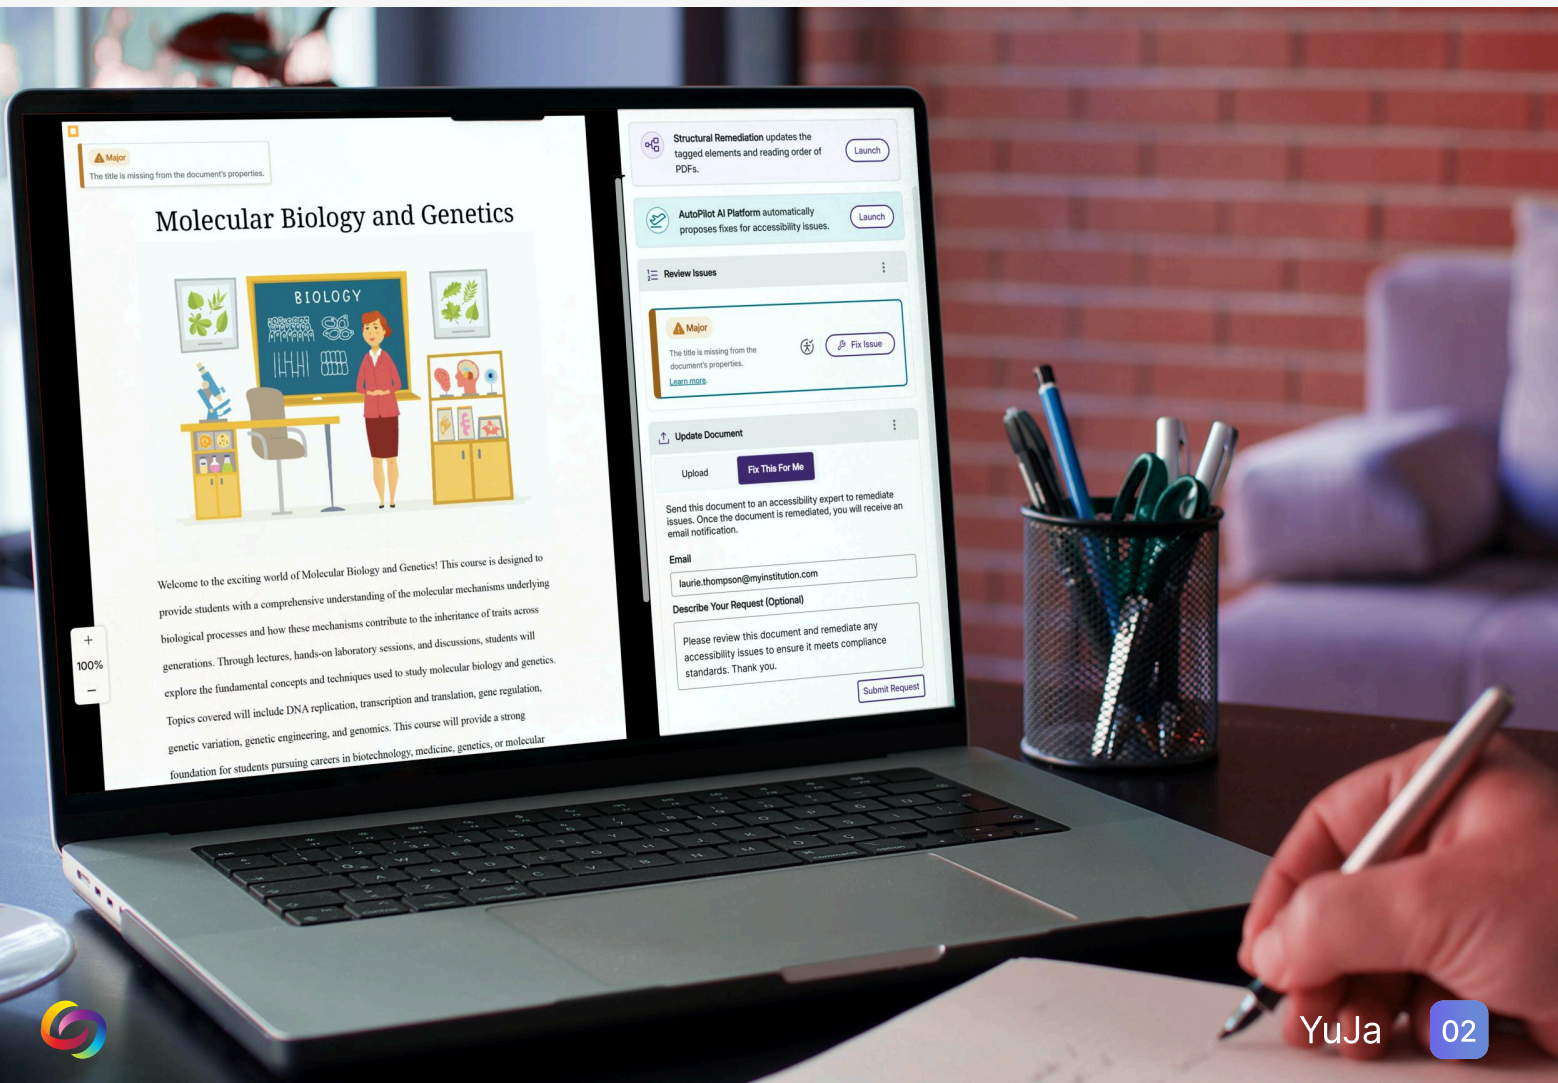

Institutions can streamline complex accessibility remediation by leveraging YuJa's team of professional accessibility specialists or streamlining internal workflows through a centralized request system. This addresses the growing challenge of meeting strict accessibility compliance deadlines:

## Simplify Request Workflows

Enable users to submit and manage accessibility requests through a single, centralized platform.

## Enhance Accessibility & Efficiency

Use YuJa's accessibility specialists for complex remediation while streamlining requests through a centralized system.

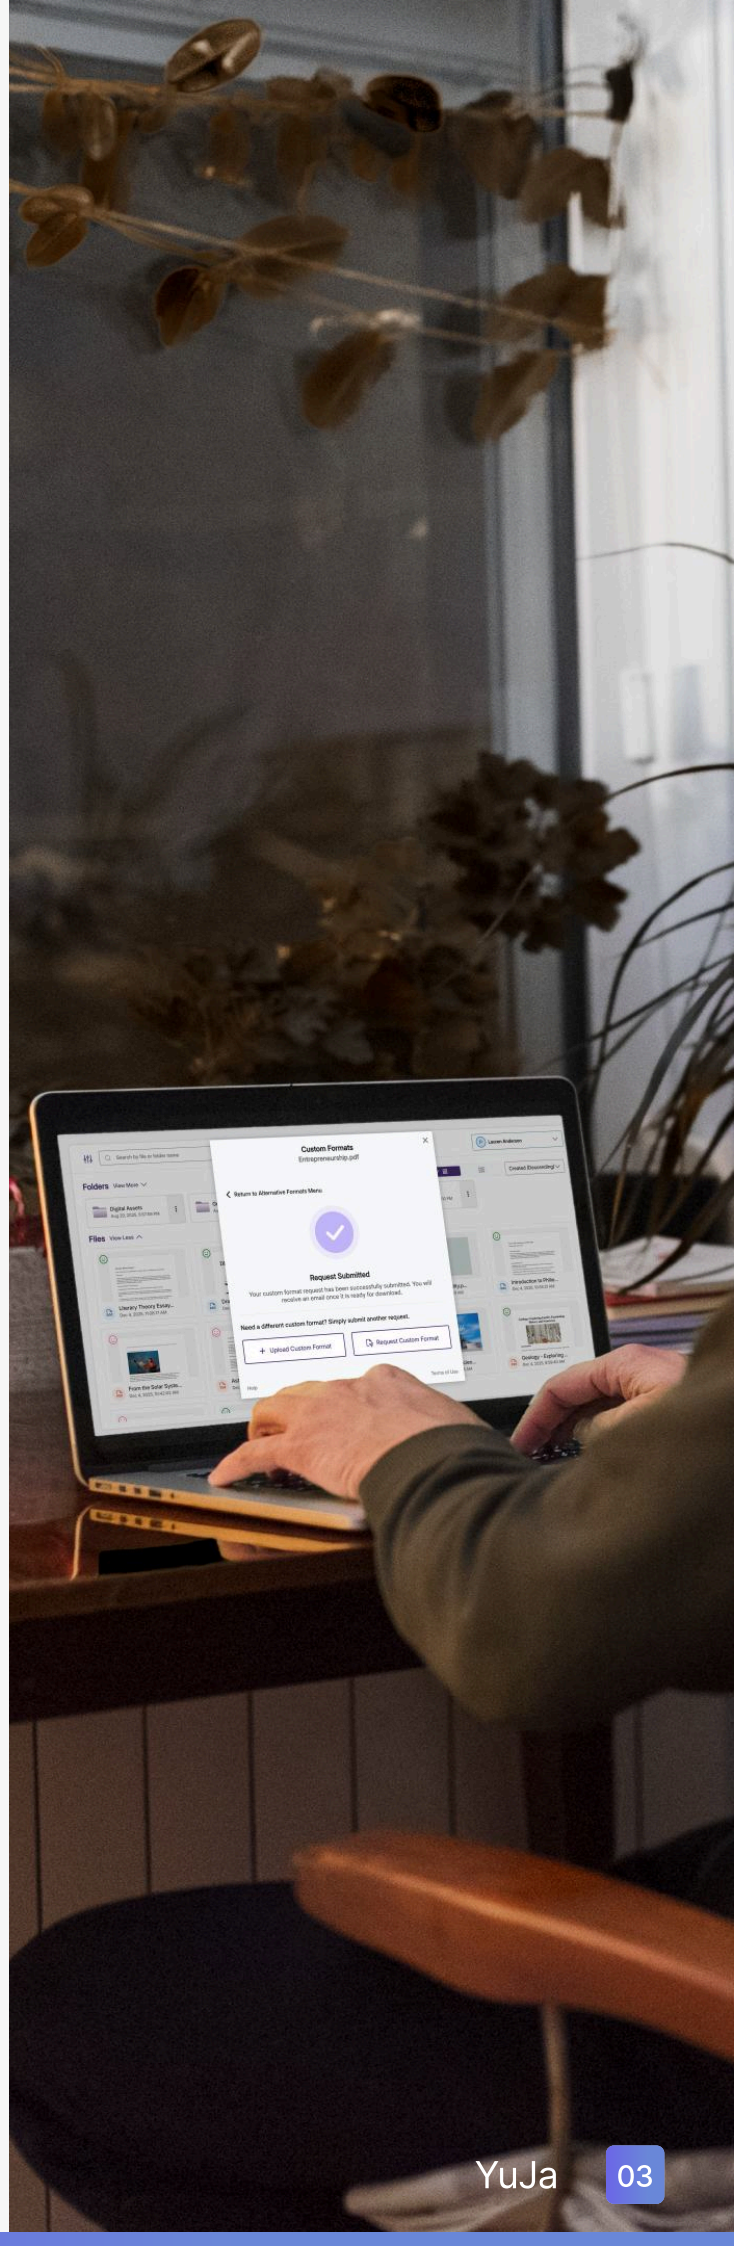

# Accessible Formats for Individual Needs

With YuJa DocAssist, users receive formats tailored to their specific accessibility requirements through a human-based review process. Our accessibility specialists ensure each document is fully compliant and optimized for individual needs.

## Examples include:

- **Improved readability** with larger fonts and enhanced spacing
- **Simplified layouts** for better navigation and comprehension
- **Reduced visual distractions** to support focus and clarity

By combining automated tools with expert human review, DocAssist ensures accessibility without compromising usability or content integrity.

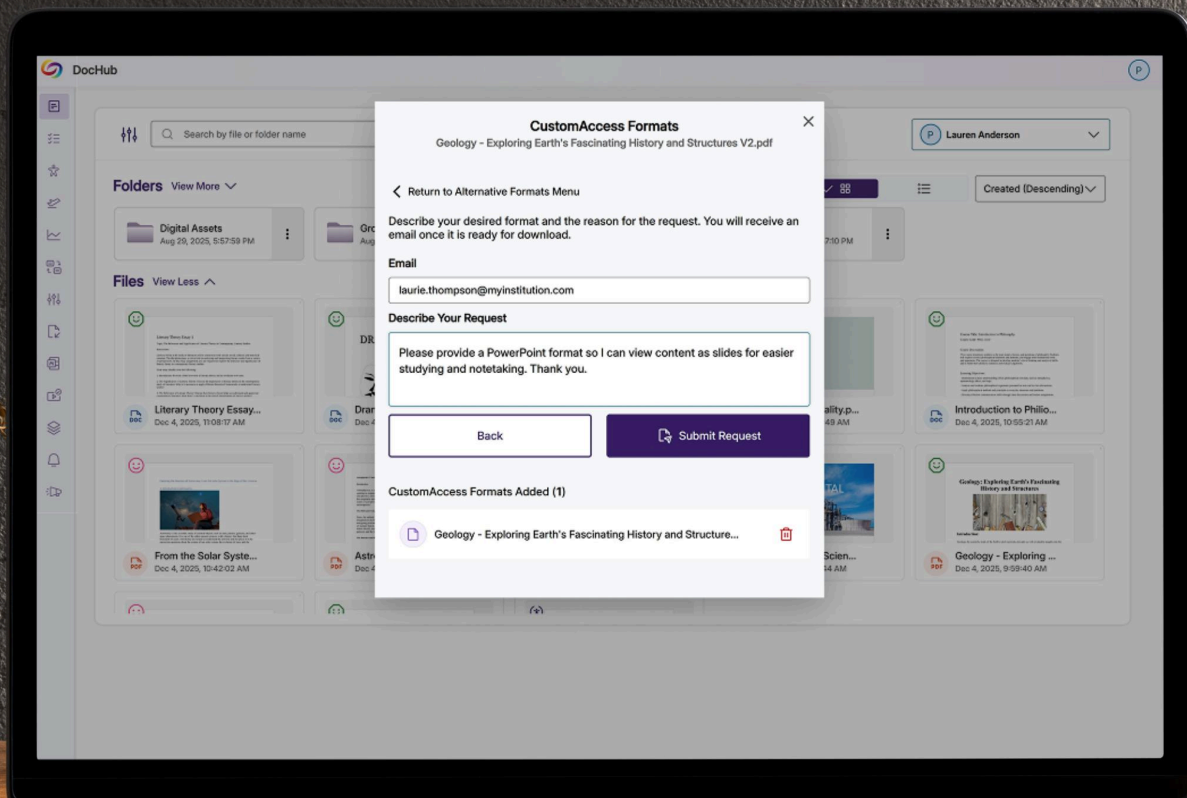

# Users Can Submit Their Own Requests

Instructors and students can easily submit personalized requests for accessible course materials directly within their learning environment.

## With DocAssist, institutions can:

- **Support Diverse Needs:** Provide accessible formats for users with a wide range of learning and accessibility requirements.
- **Help Ensure Compliance:** Strengthen alignment with WCAG, ADA, Section 508, EN 301 549, Equality Act 2010 and other standards.
- **Promote Accessibility Excellence:** Combine expert remediation with streamlined workflows for efficient, inclusive learning.

# Manage Internally or Use Our Specialists

YuJa DocAssist allows you to handle requests internally or let YuJa's team of accessibility specialists perform a full audit and remediate all accessibility issues for you. Our accessibility specialists have years of experience remediating common and complex digital accessibility issues.

## Our specialists can:

- Deliver accessible formats that meet compliance standards
- Ensure users receive fully accessible results directly in their inbox
- Resolve issues ranging from simple fixes to more advanced structural changes

Our accessibility specialists understand how to resolve issues impacting accessibility, helping ensure users can interact with your content regardless of their abilities.

# Easily Track All Accessible Format Requests

YuJa DocAssist makes it easy for instructors and students to submit their requests, but you choose how to manage them.

## Key capabilities include:

### Automatic Updates

Finished documents are automatically updated in their original LMS locations

### Eliminate Manual Work

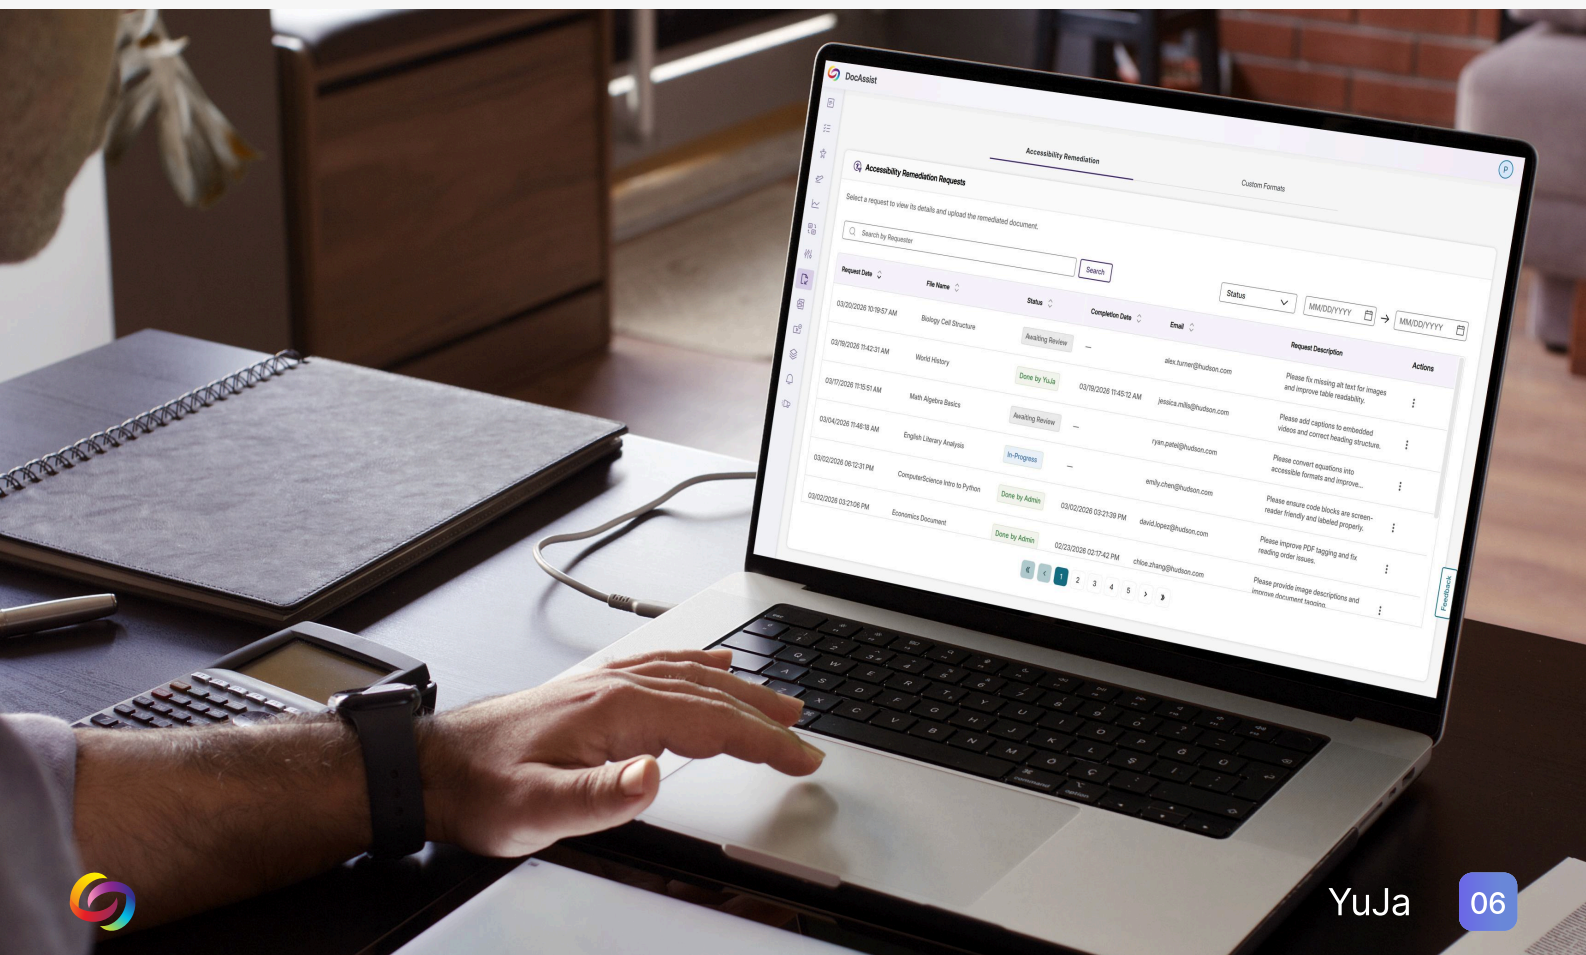

Eliminate manual file-replacement process that often creates workflow bottlenecks

### Complete Visibility

Complete visibility into remediation requests, progress tracking, and completion status

### Improve Accessibility

Ensure document accessibility to meet compliance standards.

# Manage Requests Directly in Your LMS

YuJa DocAssist integrates seamlessly within Canvas, D2L Brightspace, Moodle, and Blackboard learning management systems to deliver human-based accessibility reviews and document remediation.

## Within your LMS, you can:

### Submit Requests Easily

Users can request accessible formats directly within their LMS environment.

### Centralized Management

Instructors can easily review, track, and manage requests in one place.

### Streamlined Workflow

Streamline accessibility workflows without switching between systems.

# Get in Touch with Us.

YuJa offers a broad portfolio of cloud platforms and applications. We encourage you to reach out to a Solutions Expert who can advise on a solution that meets your organization's needs.
