YuJa

Supporting the Needs of Non-Traditional Students

Support Flexible, Accessible Learning for Nontraditional Students

YuJa's comprehensive ed-tech suite provides support for nontraditional students across video, accessibility, proctoring, and engagement platforms, ensuring all learners have the tools they need to succeed.

Multilingual Support for English Language Learners
Multilingual captions and translations help language learners improve their communication skills and engage with content more effectively.

Video Tutorials Support First-Generation Students
Simplified access to learning platforms helps students feel confident navigating their course materials.

Flexible Learning for Pell-Eligible Students and Military Members
Flexible learning opportunities enable students to attend class from anywhere and learn at their own pace, balancing other obligations.

Comprehensive Accessibility Features for Students with Disabilities
YuJa supports accessibility with tools like electronic Braille, closed captions, math formats, and more.

Interactive Tools for All Learners
Interactive features like quizzes, collaborative projects, and gamification offer diverse ways for students to connect with peers and instructors.
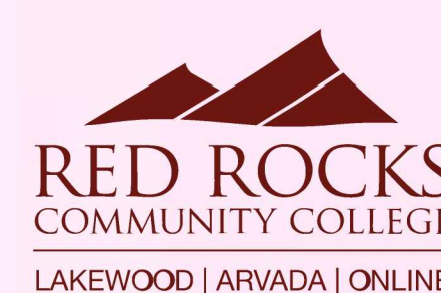

> "Digital accessibility is more than addressing disabilities or students with disabilities. We're not providing accessibility for one student for one semester — we're making learning accessible to all people."

Dr. Maia Smith
Ed.D, Associate Director of Learning
