

# YuJa Lumina Video Platform Accessibility Conformance Report

## WCAG Edition

(Based on VPAT<sup>®</sup> Version 2.5)

### Name of Product/Version:

YuJa Lumina Video Platform

### Report Date:

June 2026

### Product Description:

The YuJa Lumina Video Platform provides an all-in-one Video Content Management System (Video CMS) that allows educational institutions to store, organize, share, and stream media content efficiently.

### Contact Information:

YuJa Accessibility Department  
Email: [accessibility@yuja.com](mailto:accessibility@yuja.com)

### Notes:

This report evaluates the accessibility conformance of all pages across the Lumina Platform.

### Evaluation Methods Used:

YuJa Lumina Video Platform was evaluated for WCAG 2.2 Level AA compliance using a combination of automated tools, manual testing, and validation across multiple browsers, including Google Chrome, Firefox, and Microsoft Edge.

### Manual Evaluation Tools:

- NVDA, JAWS for Windows
- Keyboard navigation
- WebAIM Colour Contrast Checker
- Chrome Developer Tools

## Automated tools:

- axe DevTools
- YuJa EqualGround Accessibility Governance Platform
- WAVE (WebAIM) Chrome extension

## Applicable Standards/Guidelines

This report covers the degree of conformance for the following accessibility standard/guidelines:

Standard/Guideline	Included In Report
<a href="#">Web Content Accessibility Guidelines 2.0</a>	Level A (Yes) Level AA (Yes) Level AAA (No)
<a href="#">Web Content Accessibility Guidelines 2.1</a>	Level A (Yes) Level AA (Yes) Level AAA (No)
<a href="#">Web Content Accessibility Guidelines 2.2</a>	Level A (Yes) Level AA (Yes) Level AAA (No)

## Terms

The terms used in the Conformance Level information are defined as follows:

- **Supports:** The functionality of the product has at least one method that meets the criterion without known defects or meets with equivalent facilitation.
- **Partially Supports:** Some functionality of the product does not meet the criterion.
- **Does Not Support:** The majority of product functionality does not meet the criterion.
- **Not Applicable:** The criterion is not relevant to the product.
- **Not Evaluated:** The product has not been evaluated against the criterion. This can only be used in WCAG Level AAA criteria.

## WCAG 2.x Report

Note: When reporting on conformance with the WCAG 2.x Success Criteria, they are scoped for full pages, complete processes, and accessibility-supported ways of using technology as documented in the [WCAG 2.0 Conformance Requirements](#).

**Table 1: Success Criteria, Level A**

Criteria	Conformance Level	Remarks and Explanations
<a href="#">1.1.1 Non-text Content</a> (Level A)	Supports	All non-text content presented to the user has a text alternative that serves the same purpose. Assistive technologies don't ignore pure decorative content.
<a href="#">1.2.1 Audio-only and Video-only (Prerecorded)</a> (Level A)	Supports	The platform does not host standalone prerecorded audio or video media that lacks accessible alternatives. All prerecorded audio-only content is accompanied by text transcripts, and video-only content includes text or audio descriptions.
<a href="#">1.2.2 Captions (Prerecorded)</a> (Level A)	Supports	All prerecorded synchronized media (videos with audio) include accurate, synchronized captions for the spoken language and relevant environmental sounds.
<a href="#">1.2.3 Audio Description or Media Alternative (Prerecorded)</a> (Level A)	Supports	All prerecorded synchronized media with visual content include either a synchronized audio description track or a comprehensive descriptive text transcript that captures all meaningful visual information.
<a href="#">1.3.1 Info and Relationships</a> (Level A)	Supports	The information, layout, and connections shown visually can be identified by software or are also described in text.
<a href="#">1.3.2 Meaningful Sequence</a> (Level A)	Supports	The reading order is easy to follow and intuitive.
<a href="#">1.3.3 Sensory Characteristics</a> (Level A)	Supports	Instructions do not depend only on shape, colour, size, position, direction, or sound to explain how to use or understand the content.
<a href="#">1.4.1 Use of Color</a> (Level A)	Supports	Color is not used as the only visual means of conveying information,

		indicating an action, prompting a response, or distinguishing a visual element.
<a href="#">1.4.2 Audio Control</a> (Level A)	Supports	The user is provided with full, accessible controls to pause, stop, or adjust the volume of the audio independently.
<a href="#">2.1.1 Keyboard</a> (Level A)	Supports	All functionality of the content is operable through a keyboard interface without requiring specific timings for individual keystrokes.
<a href="#">2.1.2 No Keyboard Trap</a> (Level A)	Supports	Keyboard focus can be moved to a component on the page using a keyboard interface, then moved away from that component using only a keyboard interface.
<a href="#">2.1.4 Character Key Shortcuts</a> (Level A 2.1 and 2.2)	Supports	Keyboard shortcuts on the platform do not rely solely on letters, punctuation, numbers, or symbols.
<a href="#">2.2.1 Timing Adjustable</a> (Level A)	Not Applicable	There is no time limit set on the platform pages
<a href="#">2.2.2 Pause, Stop, Hide</a> (Level A)	Supports	Content can generally be paused, stopped, or hidden when it moves or updates automatically, though there is one instance where this control is not available.
<a href="#">2.3.1 Three Flashes or Below Threshold</a> (Level A)	Supports	The platform does not have anything that flashes more than three times per second.
<a href="#">2.4.1 Bypass Blocks</a> (Level A)	Supports	A mechanism is available to bypass blocks of content that are repeated on multiple Web pages.
<a href="#">2.4.2 Page Titled</a> (Level A)	Supports	The titles are present on the webpages.
<a href="#">2.4.3 Focus Order</a> (Level A)	Supports	The user interface ensures that all interactive elements receive focus

		in a sequential, logical order. Keyboard and assistive technology users can navigate predictably through all components without any disruption to meaning or usability.
<a href="#">2.4.4 Link Purpose (In Context)</a> (Level A)	Supports	The purpose of the link can be determined from the link text.
<a href="#">2.5.1 Pointer Gestures</a> (Level A 2.1 and 2.2)	Not Applicable	Multipoint or path-based gestures are not necessary for operating functionality within the pages.
<a href="#">2.5.2 Pointer Cancellation</a> (Level A 2.1 and 2.2)	Supports	Functionality that can be operated using a single pointer.
<a href="#">2.5.3 Label in Name</a> (Level A 2.1 and 2.2)	Supports	For user interface components with labels that include text or images of text, the name contains the text that is presented visually.
<a href="#">2.5.4 Motion Actuation</a> (Level A 2.1 and 2.2)	Not Applicable	There is no functionality triggered by moving the device or by user movement.
<a href="#">3.1.1 Language of Page</a> (Level A)	Supports	The language of the page is specified through the use of the `lang` attribute.
<a href="#">3.2.1 On Focus</a> (Level A)	Supports	The elements “on focus” do not cause significant changes to the screens.
<a href="#">3.2.2 On Input</a> (Level A)	Supports	The elements “on input” do not cause significant changes to the screens.
<a href="#">3.2.6 Consistent Help</a> (Level A 2.2 only)	Supports	Web pages contain help mechanisms, and those mechanisms are repeated on multiple web pages.
<a href="#">3.3.1 Error Identification</a> (Level A)	Supports	The item that is in error is identified, and the error is described to the user in text.
<a href="#">3.3.2 Labels or Instructions</a> (Level A)	Supports	Labels are provided where user input is expected.

<a href="#">3.3.7 Redundant Entry</a> (Level A 2.2 only)	Supports	The user does not have to re-enter any type of information.
<a href="#">4.1.2 Name, Role, Value</a> (Level A)	Supports	For all user interface components (including but not limited to: form elements, links and components generated by scripts), the name and role can be programmatically determined.

**Table 2: Success Criteria, Level AA**

Criteria	Conformance Level	Remarks and Explanations
<a href="#">1.2.4 Captions (Live)</a> (Level AA)	Supports	Any live synchronized media streams or broadcasts integrated into the platform include real-time, synchronized captions for all spoken content and auditory information.
<a href="#">1.2.5 Audio Description (Prerecorded)</a> (Level AA)	Supports	Synchronized audio descriptions are systematically integrated into all prerecorded video elements across the platform.
<a href="#">1.3.4 Orientation</a> (Level AA 2.1 and 2.2)	Supports	The web application is not restricted to portrait or landscape orientation.
<a href="#">1.3.5 Identify Input Purpose</a> (Level AA 2.1 and 2.2)	Supports	All input and form fields use the appropriate HTML5 autocomplete attributes.
<a href="#">1.4.3 Contrast (Minimum)</a> (Level AA)	Supports	The visual presentation of text and images of text has a contrast ratio of 4.5:1. Large-scale text and images of large-scale text have a contrast ratio of at least 3:1.
<a href="#">1.4.4 Resize text</a> (Level AA)	Supports	Without the need for assistive technology, text can be enlarged up to 200% of its original size without any resulting loss of content or functionality.

<a href="#">1.4.5 Images of Text</a> (Level AA)	Supports	There are no images of text.
<a href="#">1.4.10 Reflow</a> (Level AA 2.1 and 2.2)	Supports	The product is designed responsively to ensure content reflows vertically without requiring horizontal scrolling when pages are zoomed up to 400%.
<a href="#">1.4.11 Non-text Contrast</a> (Level AA 2.1 and 2.2)	Supports	Non-text elements meet the 3:1 contrast ratio.
<a href="#">1.4.12 Text Spacing</a> (Level AA 2.1 and 2.2)	Supports	Content on the screen remains intact when the text size is adjusted.
<a href="#">1.4.13 Content on Hover or Focus</a> (Level AA 2.1 and 2.2)	Supports	When hover or focus triggers additional content, it is dismissible, hoverable, and persistent, meaning users can dismiss it without moving focus, move the pointer over it without it disappearing, and it remains visible until dismissed or no longer relevant.
<a href="#">2.4.5 Multiple Ways</a> (Level AA)	Supports	Multiple pathways, including search functionality and persistent navigation menus, are provided to allow users to easily locate pages within the system.
<a href="#">2.4.6 Headings and Labels</a> (Level AA)	Supports	The headings and labels communicate the subject or function.
<a href="#">2.4.7 Focus Visible</a> (Level AA)	Supports	The keyboard focus indicator is visible and consistent across all elements.
<a href="#">2.4.11 Focus Not Obscured (Minimum)</a> (Level AA 2.2 only)	Supports	When a user interface component receives keyboard focus, the component is not entirely hidden due to author-created content.
<a href="#">2.5.7 Dragging Movements</a> (Level AA 2.2 only)	Supports	There is no functionality that uses a dragging movement across all primary pages.

<a href="#"><u>2.5.8 Target Size (Minimum)</u></a> (Level AA 2.2 only)	Supports	All interactive targets maintain a minimum size of 24 by 24 CSS pixels, or use equivalent spacing to prevent overlapping touch targets.
<a href="#"><u>3.1.2 Language of Parts</u></a> (Level AA)	Supports	No content is in a different language on the English-language website.
<a href="#"><u>3.2.3 Consistent Navigation</u></a> (Level AA)	Supports	Navigational mechanisms that are repeated on multiple Web pages within a set of Web pages occur in the same relative order each time they are repeated.
<a href="#"><u>3.2.4 Consistent Identification</u></a> (Level AA)	Supports	The elements are labelled the same across multiple pages.
<a href="#"><u>3.3.3 Error Suggestion</u></a> (Level AA)	Supports	If an input error is automatically detected and suggestions for correction are known, then the suggestions are provided to the user, unless it would jeopardize the security or purpose of the content.
<a href="#"><u>3.3.4 Error Prevention (Legal, Financial, Data)</u></a> (Level AA)	Not Applicable	The web app does not collect legal, financial or secure data.
<a href="#"><u>3.3.8 Accessible Authentication (Minimum)</u></a> (Level AA 2.2 only)	Supports	A cognitive function test (such as remembering a password or solving a puzzle) is not required for any step in an authentication process.
<a href="#"><u>4.1.3 Status Messages</u></a> (Level AA 2.1 and 2.2)	Supports	The status messages on the website are present.
