YuJa Verity Test Proctoring Platform Accessibility Conformance Report

WCAG Edition

(Based on VPAT® Version 2.5)

Name of Product/Version:

YuJa Verity Test Proctoring Platform

Report Date:

June 2026

Product Description:

The YuJa Verity Test Proctoring Platform offers secure live and automated proctoring for institutions.

Contact Information:

YuJa Accessibility Department
Email: accessibility@yuja.com

Notes:

This report evaluates the accessibility conformance of all pages across the YuJa Verity Test Proctoring Platform.

Evaluation Methods Used:

YuJa Verity Test Proctoring Platform was evaluated for WCAG 2.2 Level AA compliance using a combination of automated tools, manual testing, and validation across multiple browsers, including Google Chrome, Firefox, and Microsoft Edge.

Manual Evaluation Tools:

- NVDA, JAWS for Windows
- Keyboard navigation
- WebAIM Colour Contrast Checker
- Chrome Developer Tools

Automated tools:

- YuJa EqualGround Accessibility Governance Platform
- axe DevTools
- WAVE (WebAIM) Chrome extension

Applicable Standards/Guidelines

This report covers the degree of conformance for the following accessibility standard/guidelines:

Standard/Guideline	Included In Report
Web Content Accessibility Guidelines 2.0	Level A (Yes) Level AA (Yes) Level AAA (No)
Web Content Accessibility Guidelines 2.1	Level A (Yes) Level AA (Yes) Level AAA (No)
Web Content Accessibility Guidelines 2.2	Level A (Yes) Level AA (Yes) Level AAA (No)

Terms

The terms used in the Conformance Level information are defined as follows:

- **Supports**: The functionality of the product has at least one method that meets the criterion without known defects or meets with equivalent facilitation.
- **Partially Supports**: Some functionality of the product does not meet the criterion.
- **Does Not Support**: The majority of product functionality does not meet the criterion.
- **Not Applicable**: The criterion is not relevant to the product.
- **Not Evaluated**: The product has not been evaluated against the criterion. This can only be used in WCAG Level AAA criteria.

WCAG 2.x Report

Note: When reporting on conformance with the WCAG 2.x Success Criteria, they are scoped for full pages, complete processes, and accessibility-supported ways of using technology as documented in the WCAG 2.0 Conformance Requirements.

Table 1: Success Criteria, Level A

Criteria	Conformance Level	Remarks and Explanations
1.1.1 Non-text Content (Level A)	Supports	All non-text content presented to the user has a text alternative that serves the same purpose. Assistive technologies don't ignore pure decorative content.
1.2.1 Audio-only and Video-only (Prerecorded) (Level A)	Not Applicable	There is no audio-only, video-only content.
1.2.2 Captions (Prerecorded) (Level A)	Supports	Captions are provided for all prerecorded audio content in synchronized media.
1.2.3 Audio Description or Media Alternative (Prerecorded) (Level A)	Supports	An alternative for time-based media or audio description of the prerecorded video content is not required.
1.3.1 Info and Relationships (Level A)	Supports	The information, layout, and connections shown visually can be identified by software or are also described in text.
1.3.2 Meaningful Sequence (Level A)	Supports	The reading order is easy to follow and intuitive.
1.3.3 Sensory Characteristics (Level A)	Supports	Instructions do not depend only on shape, colour, size, position, direction, or sound to explain how to use or understand the content.
1.4.1 Use of Color (Level A)	Supports	Color is not used as the only visual means of conveying information, indicating an action, prompting a response, or distinguishing a visual element.
1.4.2 Audio Control (Level A)	Not Applicable	No audio is detected on the platform.
2.1.1 Keyboard (Level A)	Supports	Functionality of the content is operable through a keyboard interface without requiring specific timings for individual keystrokes.

2.1.2 No Keyboard Trap (Level A)	Supports	Keyboard focus can be moved to a component of the page using a keyboard interface, then focus can be moved away from that component using only a keyboard interface.
2.1.4 Character Key Shortcuts (Level A 2.1 and 2.2)	Supports	Keyboard shortcuts on the platform do not rely solely on letters, punctuation, numbers, or symbols.
2.2.1 Timing Adjustable (Level A)	Not Applicable	There is no time limit set on the platform pages.
2.2.2 Pause, Stop, Hide (Level A)	Supports	No moving, blinking, scrolling, or auto-updating content is present in the application.
2.3.1 Three Flashes or Below Threshold (Level A)	Not Applicable	The platform does not have anything that flashes more than three times per second.
2.4.1 Bypass Blocks (Level A)	Supports	A mechanism is available to bypass blocks of content that are repeated on multiple Web pages.
2.4.2 Page Titled (Level A)	Partially Supports	Page titles are implemented, but further optimization is needed for specific pages to ensure they are adequately descriptive.
2.4.3 Focus Order (Level A)	Partially Supports	Most interactive components follow a logical focus order, with occasional exceptions in specific, complex UI elements or dynamic sections.
2.4.4 Link Purpose (In Context) (Level A)	Supports	The purpose of the link can be determined from the link text.
2.5.1 Pointer Gestures (Level A 2.1 and 2.2)	Not Applicable	Multipoint or path-based gestures are not necessary for operating the page's functionality.
2.5.2 Pointer Cancellation (Level A 2.1 and 2.2)	Supports	Functionality that can be operated using a single pointer.

2.5.3 Label in Name (Level A 2.1 and 2.2)	Supports	For user interface components with labels that include text or images of text, the name contains the text that is presented visually.
2.5.4 Motion Actuation (Level A 2.1 and 2.2)	Not Applicable	There is no functionality triggered by moving the device or by user movement.
3.1.1 Language of Page (Level A)	Supports	The platform pages have language attributes.
3.2.1 On Focus (Level A)	Supports	The elements “on focus” do not cause significant changes to the screens.
3.2.2 On Input (Level A)	Supports	The elements “on input” do not cause significant changes to the screens.
3.2.6 Consistent Help (Level A 2.2 only)	Supports	Web pages contain help mechanisms, and those mechanisms are repeated on multiple web pages.
3.3.1 Error Identification (Level A)	Supports	The item that is in error is identified, and the error is described to the user in text.
3.3.2 Labels or Instructions (Level A)	Supports	Labels are provided where user input is expected.
3.3.7 Redundant Entry (Level A 2.2 only)	Supports	User does not have to re-enter any type of information.
4.1.2 Name, Role, Value (Level A)	Supports	Standard user interface components support programmatic name and role determination, except for certain custom components generated by scripts.

Table 2: Success Criteria, Level AA

Criteria	Conformance Level	Remarks and Explanations
1.2.4 Captions (Live) (Level AA)	Not Applicable	No content requires captions.

1.2.5 Audio Description (Prerecorded) (Level AA)	Not Applicable	There is no audio content.
1.3.4 Orientation (Level AA 2.1 and 2.2)	Supports	The web application is not restricted to portrait or landscape orientation.
1.3.5 Identify Input Purpose (Level AA 2.1 and 2.2)	Supports	All input and form fields use the appropriate HTML5 autocomplete attributes.
1.4.3 Contrast (Minimum) (Level AA)	Supports	The visual presentation of text and images of text has a contrast ratio of 4.5:1. Large-scale text and images of large-scale text have a contrast ratio of at least 3:1.
1.4.4 Resize text (Level AA)	Partially Supports	Text can be enlarged up to 200% of its original size without the need for assistive technology, with the exception of a few specific views where resizing may result in minor content overlap.
1.4.5 Images of Text (Level AA)	Supports	There are no images of text.
1.4.10 Reflow (Level AA 2.1 and 2.2)	Partially Supports	While the application largely supports reflow requirements without requiring two-dimensional scrolling, certain exceptions exist where specific user interface elements fail to wrap properly, leading to minor content truncation or vertical/horizontal alignment issues.
1.4.11 Non-text Contrast (Level AA 2.1 and 2.2)	Supports	Non-text elements meet the 3:1 contrast ratio.
1.4.12 Text Spacing (Level AA 2.1 and 2.2)	Supports	Content on the screen remains intact when the text size is adjusted.
1.4.13 Content on Hover or Focus (Level AA 2.1 and 2.2)	Supports	When hover or focus triggers additional content, it is dismissible, hoverable, and persistent, meaning users can

		dismiss it without moving focus, move the pointer over it without it disappearing, and it remains visible until dismissed or no longer relevant.
2.4.5 Multiple Ways (Level AA)	Partially Supports	While alternative navigation paths are provided across most areas of the site, specific operational processes or isolated documents lack multiple entry points.
2.4.6 Headings and Labels (Level AA)	Supports	The headings and labels communicate the subject or function.
2.4.7 Focus Visible (Level AA)	Supports	The keyboard focus indicator is visible and consistent across all elements.
2.4.11 Focus Not Obscured (Minimum) (Level AA 2.2 only)	Supports	When a user interface component receives keyboard focus, the component is not entirely hidden due to author-created content.
2.5.7 Dragging Movements (Level AA 2.2 only)	Supports	No functionality uses a dragging movement across all primary pages.
2.5.8 Target Size (Minimum) (Level AA 2.2 only)	Supports	All interactive targets maintain a minimum size of 24 by 24 CSS pixels, or use equivalent spacing to prevent overlapping touch targets.
3.1.2 Language of Parts (Level AA)	Supports	The human language of each passage or phrase in the content can be programmatically determined except for proper names, technical terms, words of indeterminate language, and words or phrases that have become part of the vernacular of the immediately surrounding text.
3.2.3 Consistent Navigation (Level AA)	Supports	Navigational mechanisms that are repeated on multiple Web pages within a set of Web pages occur in

		the same relative order each time they are repeated.
3.2.4 Consistent Identification (Level AA)	Supports	The elements are labelled the same across multiple pages.
3.3.3 Error Suggestion (Level AA)	Supports	If an input error is automatically detected and suggestions for correction are available, they are provided to the user, unless doing so would compromise the security or purpose of the content.
3.3.4 Error Prevention (Legal, Financial, Data) (Level AA)	Not Applicable	The web app does not collect legal, financial or secure data.
3.3.8 Accessible Authentication (Minimum) (Level AA 2.2 only)	Supports	Users are not required to pass cognitive function tests during authentication, unless another option or assistance is available, or the process uses object recognition or non-text personal content.
4.1.3 Status Messages (Level AA 2.1 and 2.2)	Supports	The status messages in the application are present.
