

YuJa Hardware Hub - Capture and Live Streaming

**The YuJa
Enterprise Video
Platform creates
a unified video
experience for
effective
teaching and
engaged
learning.**

Share ideas and capture knowledge effortlessly

Simple click-to-start and full automation capabilities enable instructors to focus on teaching not technology.

Live classroom webcasting

Connect multiple campuses, classrooms and locations.

Lecture capture for later

Enable flipped classroom and record video learning scenarios.

Go hands-free with auto-start capture and live streaming

Integrates with existing room media devices and peripherals.
Place one device into your classroom and unlock a world of learning possibilities

Simultaneous lecture capture and course live streaming

Instructors present naturally with hands-free operation

Students view course webcasts and captures using any web browser

Cloud-powered for simplified setup and deployment

Plug-in the YuJa Hardware Hub to instantly create engaging video experiences.

Interactive multi-stream player with deep search, viewing and note-taking capabilities

01.

Multi-stream audio and video capture (up to 6 streams)

02.

Share slides, document cameras, smartboards, and more

03.

Automatic auto-captioning for all captures

04.

Private digital note-taking and student bookmarking

We offer an integrated cloud platform

YuJa empowers the education enterprise to deploy both synchronous and asynchronous video learning solutions.

Your device integrates with our Enterprise Video Platform for social learning and video collaboration experiences.

Live course webcast and lecture capture

Capture and broadcast the learning and activity within a classroom

Teaching-centric video collaboration

Host impromptu meetings, office hours, tutorials and online lectures

Social learning and group collaboration

Real-time group collaboration and after-class student engagement

Mobile learning and course engagement

Mobile phone and tablet integration for on-the-go learning
