Viewers can watch live streams using any television, computer or mobile device

Installers For:

Interactive multi-stream player with deep search, viewing and note-taking capabilities

01.

Multi-stream audio and video capture (up to 6 streams)

02.

Share slide content, document cameras, smartboards, and more

03.

Automatic captioning for all captures

04.

Private digital note-taking and bookmarking

The screenshot displays the YuJa player interface with the following components and callouts:

- 1**: Video stream showing a presenter.
- 2**: Slide content titled "What, How, and for Whom? Central Planning Versus the Market" with a bulleted list of three economic problems.
- 3**: A row of five thumbnail previews for other slides.
- 4**: A sidebar menu with options: SLIDES, CAPTIONS, NOTES, COMMENTS, and RESOURCES.
- 5**: A search bar at the top of the sidebar.
- 6**: An "INDEX" section in the sidebar listing various topics with corresponding timestamps.
- 7**: A "View Shortcuts" button at the bottom right of the sidebar.

The main slide content includes the title "What, How, and for Whom? Central Planning Versus the Market" and a list of three problems all economic systems must address:

- What should be produced?
- How should it be produced?
- For whom will it be produced?

The bottom of the player shows a progress bar at 03:23 / 07:27 and standard playback controls.

05.

Optical character recognition of slide text contents

06.

Auto-creation of an editable table of contents

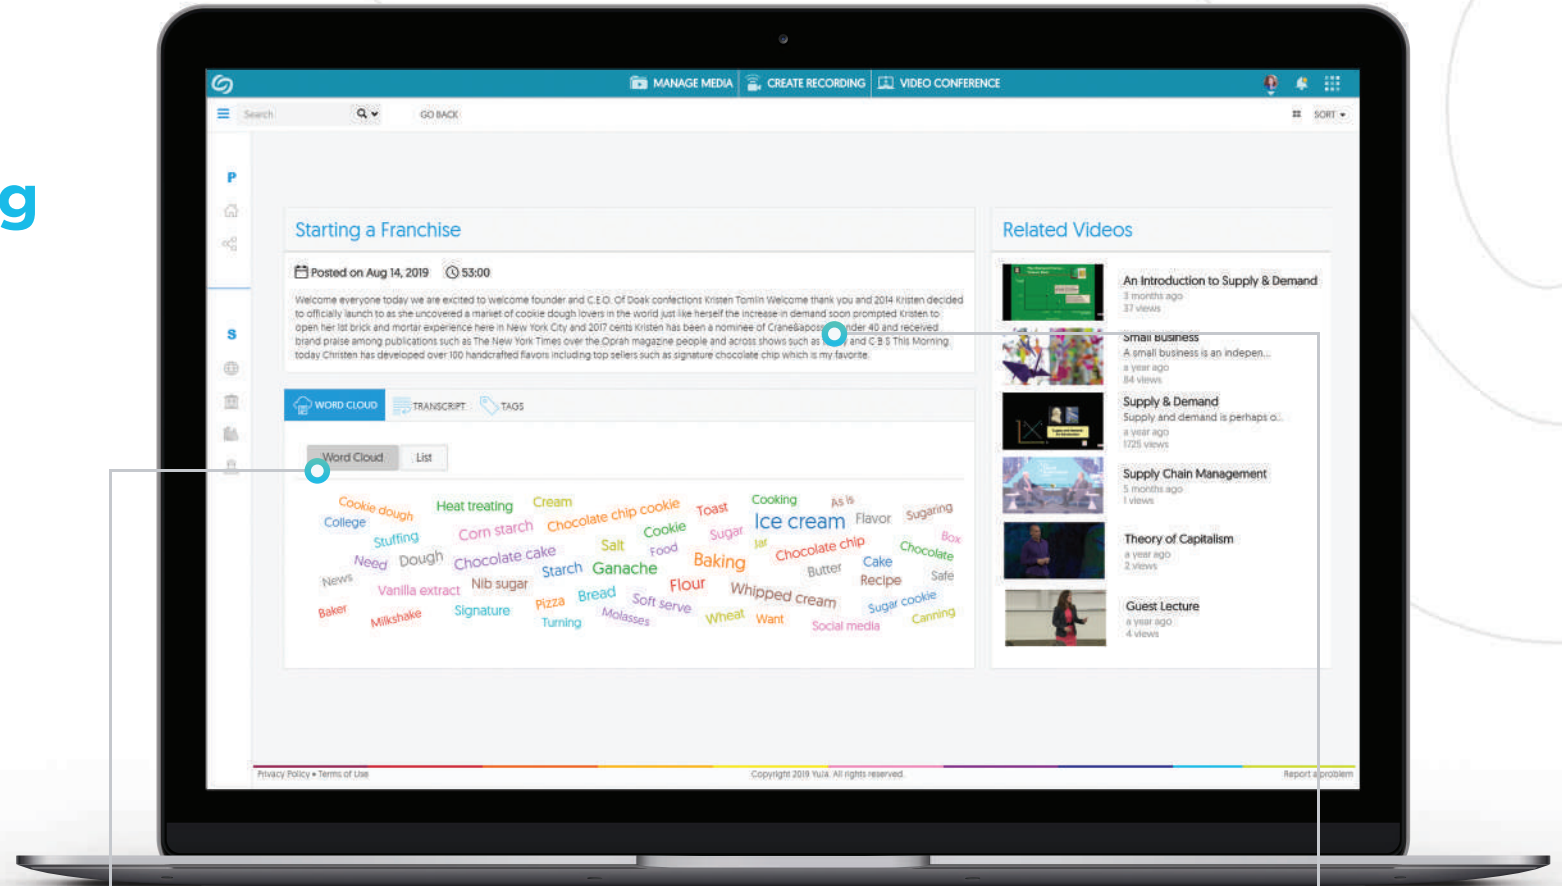

07.

Powerful Search-Inside-Video Capabilities

Videos are processed with artificial intelligence-based semantic analysis enabling auto-captioning and video search

» Industry's first automatic and deep semantic meaning analysis and categorization of the captured content

» Industry's first integrated and automatic voice-to-text captioning available shortly after the recording is processed

Creates super topic keyword tags automatically

Categorize the topics within the video

**Integrates with
virtually any
peripherals in
seconds**

Video
Cameras
& Mics

Smartboards,
Doc-cams,
Projectors

Computer
Screens

Touch
Panels

YuJa Software Capture Pro integrates with our cloud-hosted Enterprise Video Platform for a comprehensive video solution.

Media Management

Sort all your assets in one centralized location, scaling thousands of assets across multiple users
