

YuJa CivicGuard Document Remediation Platform

AI-Powered Document Accessibility for State
and Local Governments

Remediate Public Documents at Scale

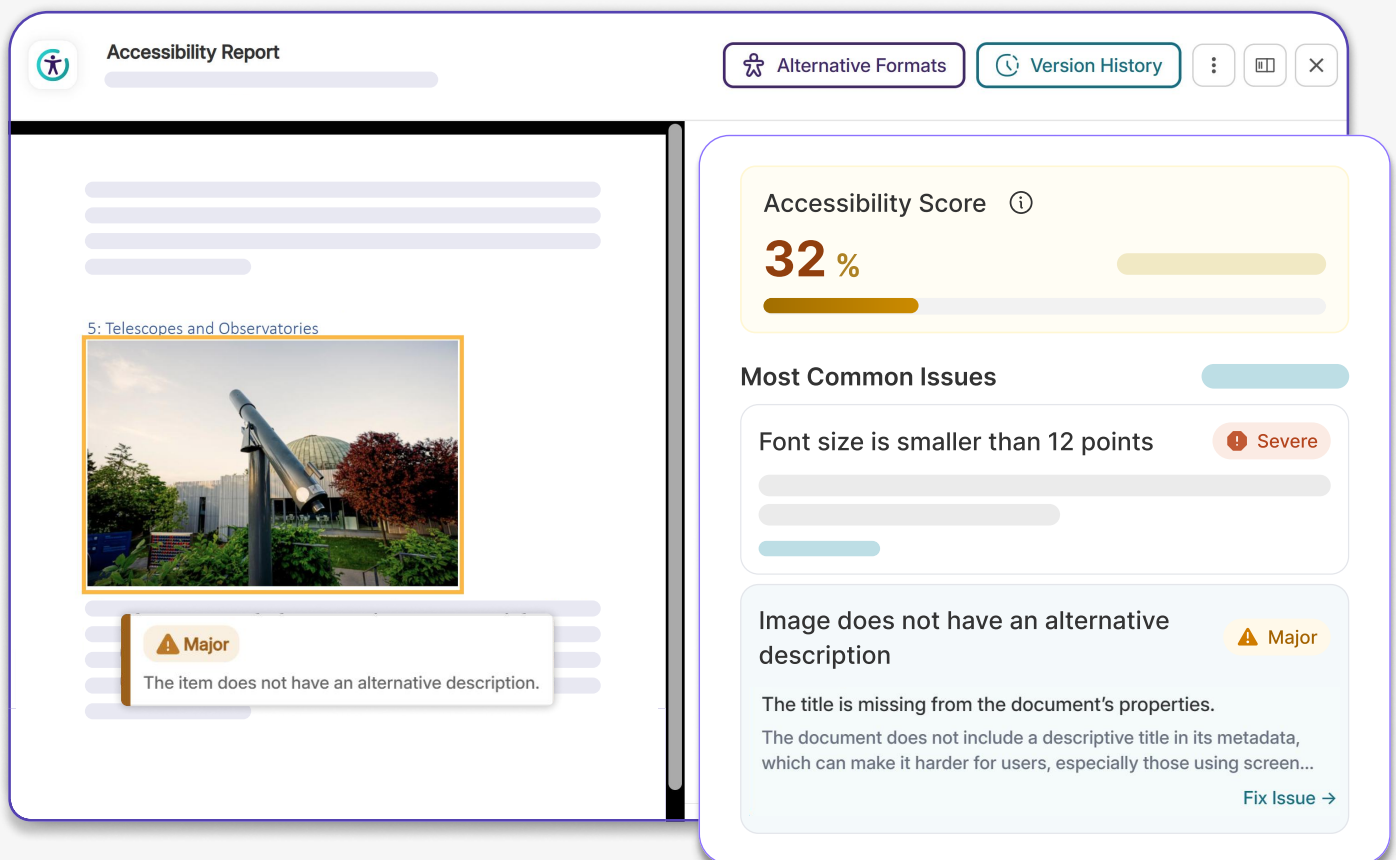

YuJa CivicGuard is an AI-powered document remediation platform designed specifically for state and local governments to improve accessibility across document libraries and content repositories. With AI-assisted, human-led, and hybrid remediation workflows, organizations can work towards accessibility compliance while reducing manual effort.

Support Compliance Initiatives

Help meet WCAG AA 2.1 and 2.2 ADA accessibility requirements through centralized remediation tools and standardized review processes.

Accelerate Accessibility Efforts

Quickly identify, prioritize, and remediate inaccessible documents using intelligent workflows that scale across departments.

Intelligent Document Remediation

YuJa CivicGuard streamlines accessibility remediation with intuitive tools that simplify document management, remediation, and compliance tracking. Users can upload files, review accessibility scores, and launch remediation workflows from a centralized dashboard.

AI-Assisted Remediation

Leverage AI to identify accessibility issues and automatically remediate common document barriers and structural issues while preserving document formatting.

Hybrid AI + Human Workflows

Combine AI automation with human review to balance efficiency, accuracy, and compliance.

Human Remediation Services

Route complex documents through expert human remediation workflows for comprehensive accessibility support.

Guided Remediation With Assistance

Get guided assistance with recommendations to resolve issues in this document.

Edit Structure With Structural Remediation

Improve document structure, reading order, and tagging for structural issues.

Send To YuJa Accessibility Experts

Send this document to an accessibility expert for complete remediation.

Centralized Accessibility Operations

To help organizations coordinate accessibility initiatives, YuJa CivicGuard provides integrated project management tools that keep remediation efforts organized across teams and departments.

Centralized Document Management

Organize, filter, and manage document libraries through an intuitive folder structure that simplifies large-scale accessibility initiatives.

Track Tasks and Progress

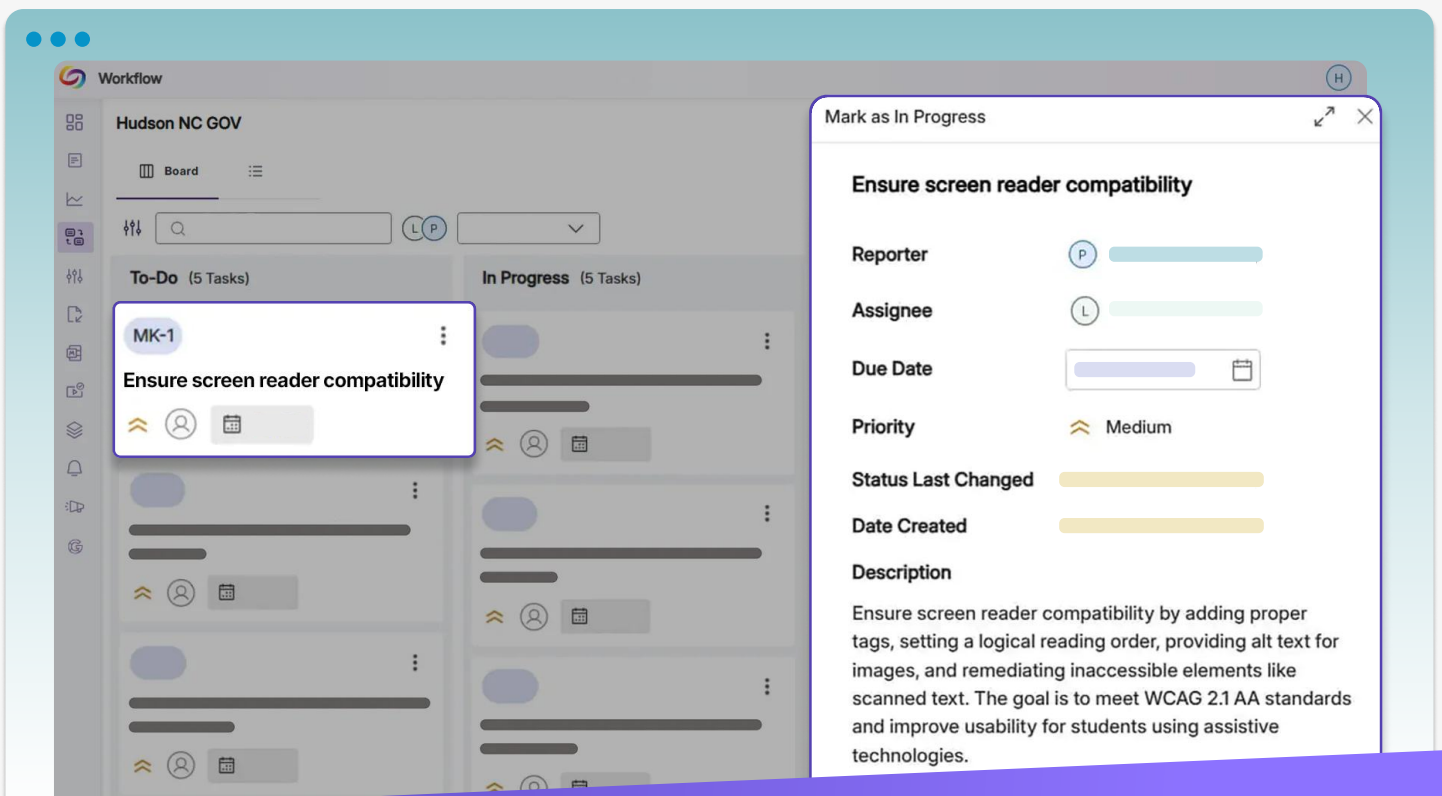

Assign remediation tasks, monitor the status of your projects, and provide visibility into compliance efforts from a centralized dashboard.

Organize Accessibility Projects

Create dedicated remediation projects for departments, websites, campaigns, or initiatives to keep your work structured and on schedule.

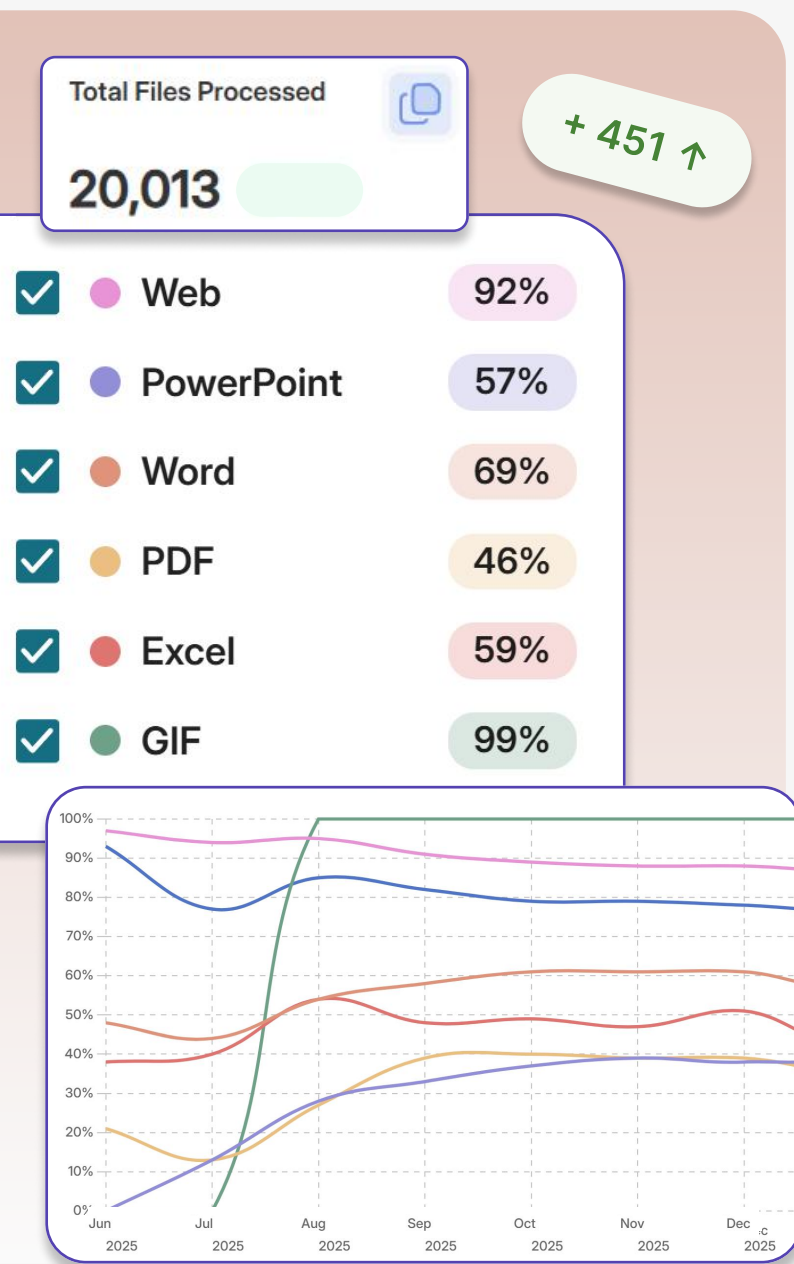

Improve Team Collaboration

Coordinate work across accessibility specialists, content creators, and reviewers while maintaining accountability throughout the remediation process.

Accessibility Reporting and Insights

Understanding accessibility progress is critical to long-term compliance. YuJa CivicGuard provides detailed reporting and analytics that help organizations measure improvement and prioritize remediation efforts.

Library Accessibility Scores

View an overall accessibility score across your document library to understand organization-wide compliance.

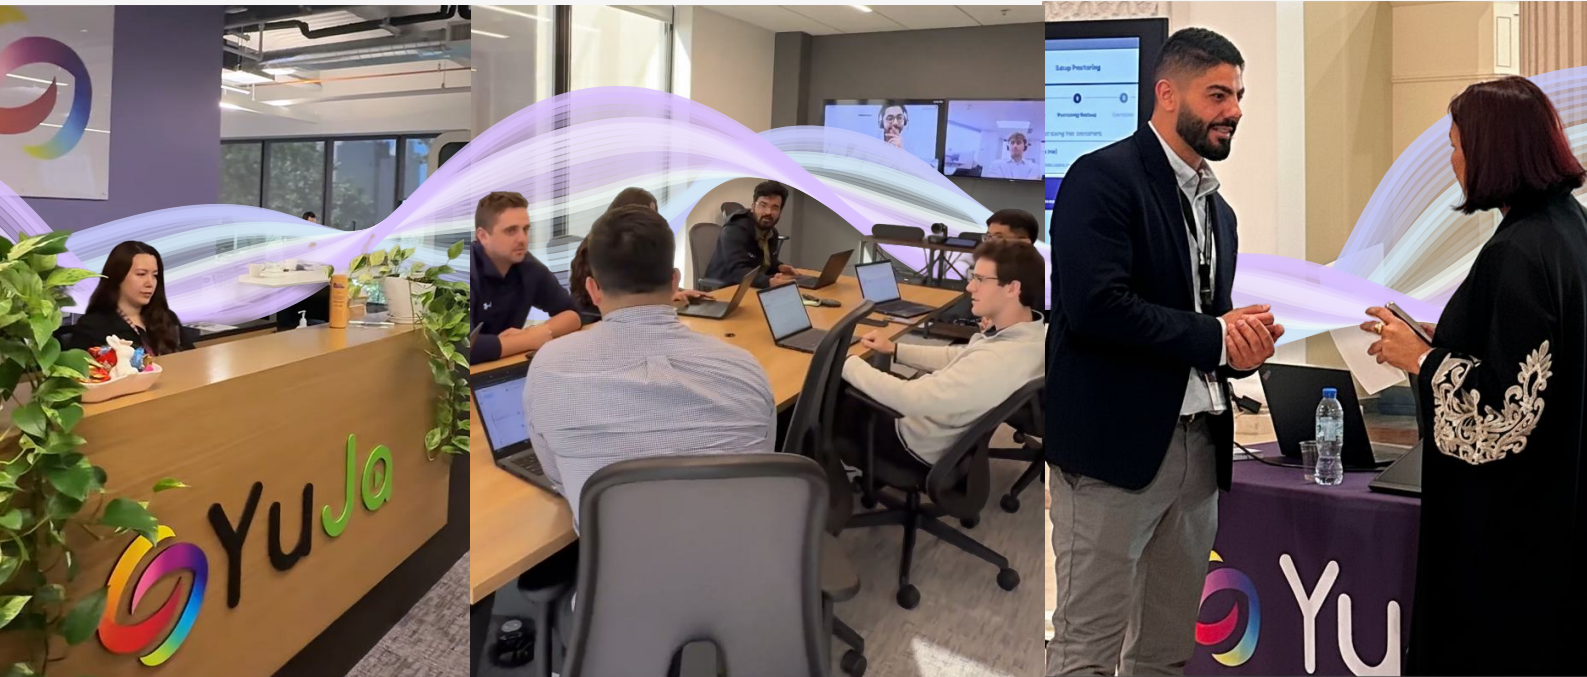

File-Type Analysis

Analyze accessibility performance by document type to identify where remediation efforts will have the greatest possible impact.

Progress Over Time

Monitor historical accessibility improvements using customizable reports and date filtering to demonstrate ongoing compliance progress.

Get in Touch with Us
