

YuJa EqualGround Website Accessibility Platform

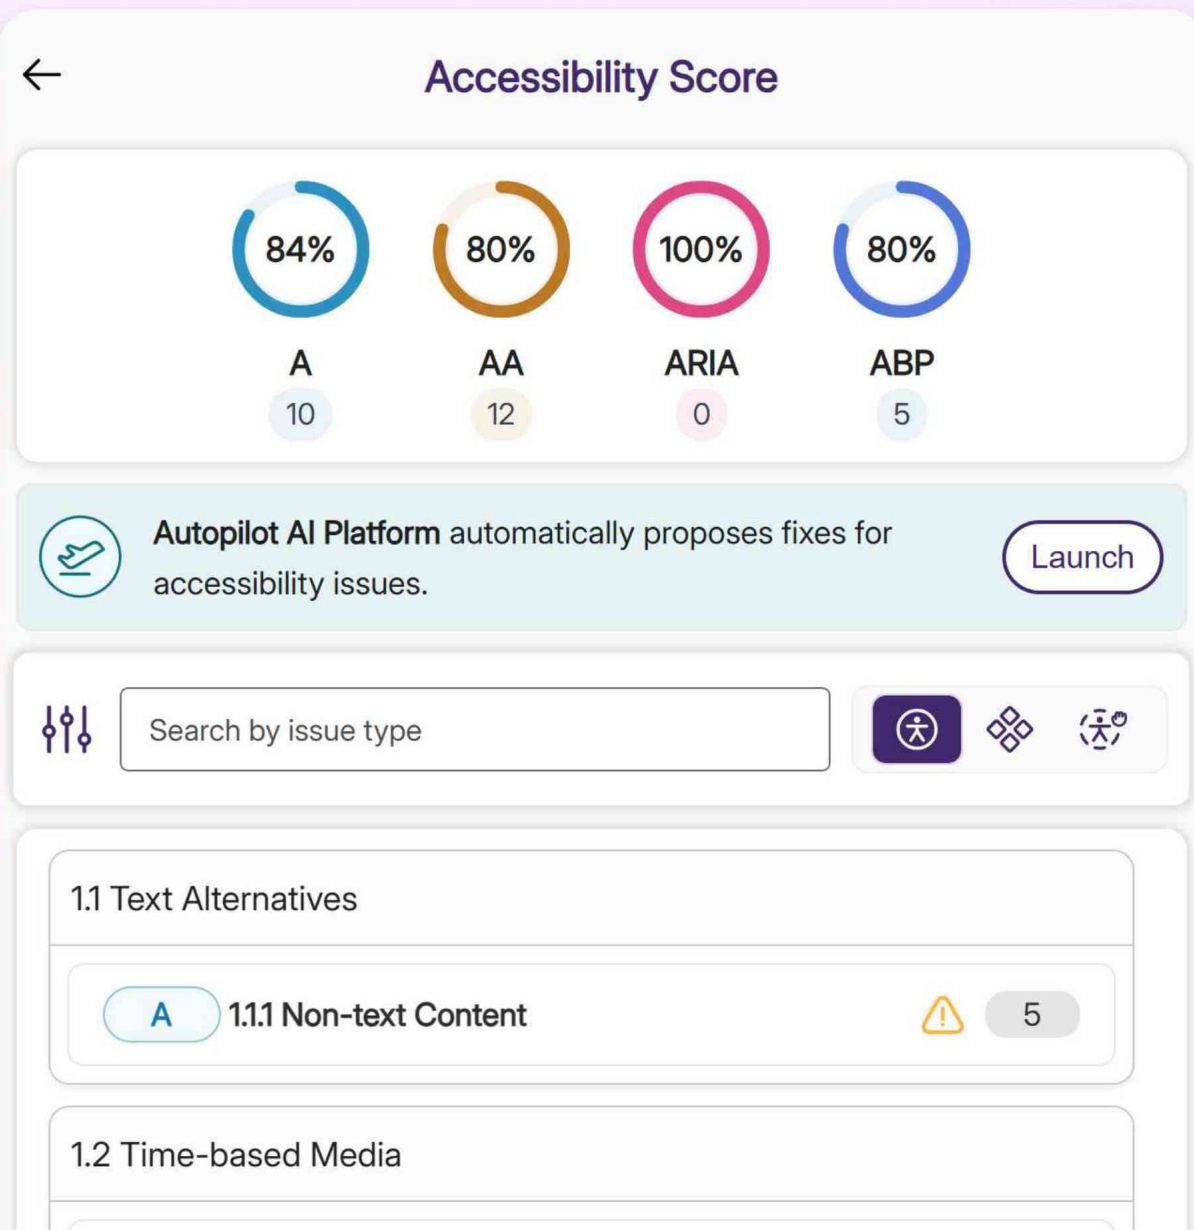

Drive Digital Equity with Scalable Web Accessibility and Compliance Tools

Why Digital Accessibility Matters

YuJa EqualGround helps organizations meet compliance standards, improve user experiences, and create an inclusive digital environment for all.

The Reality: Digital Barriers Affect Everyone

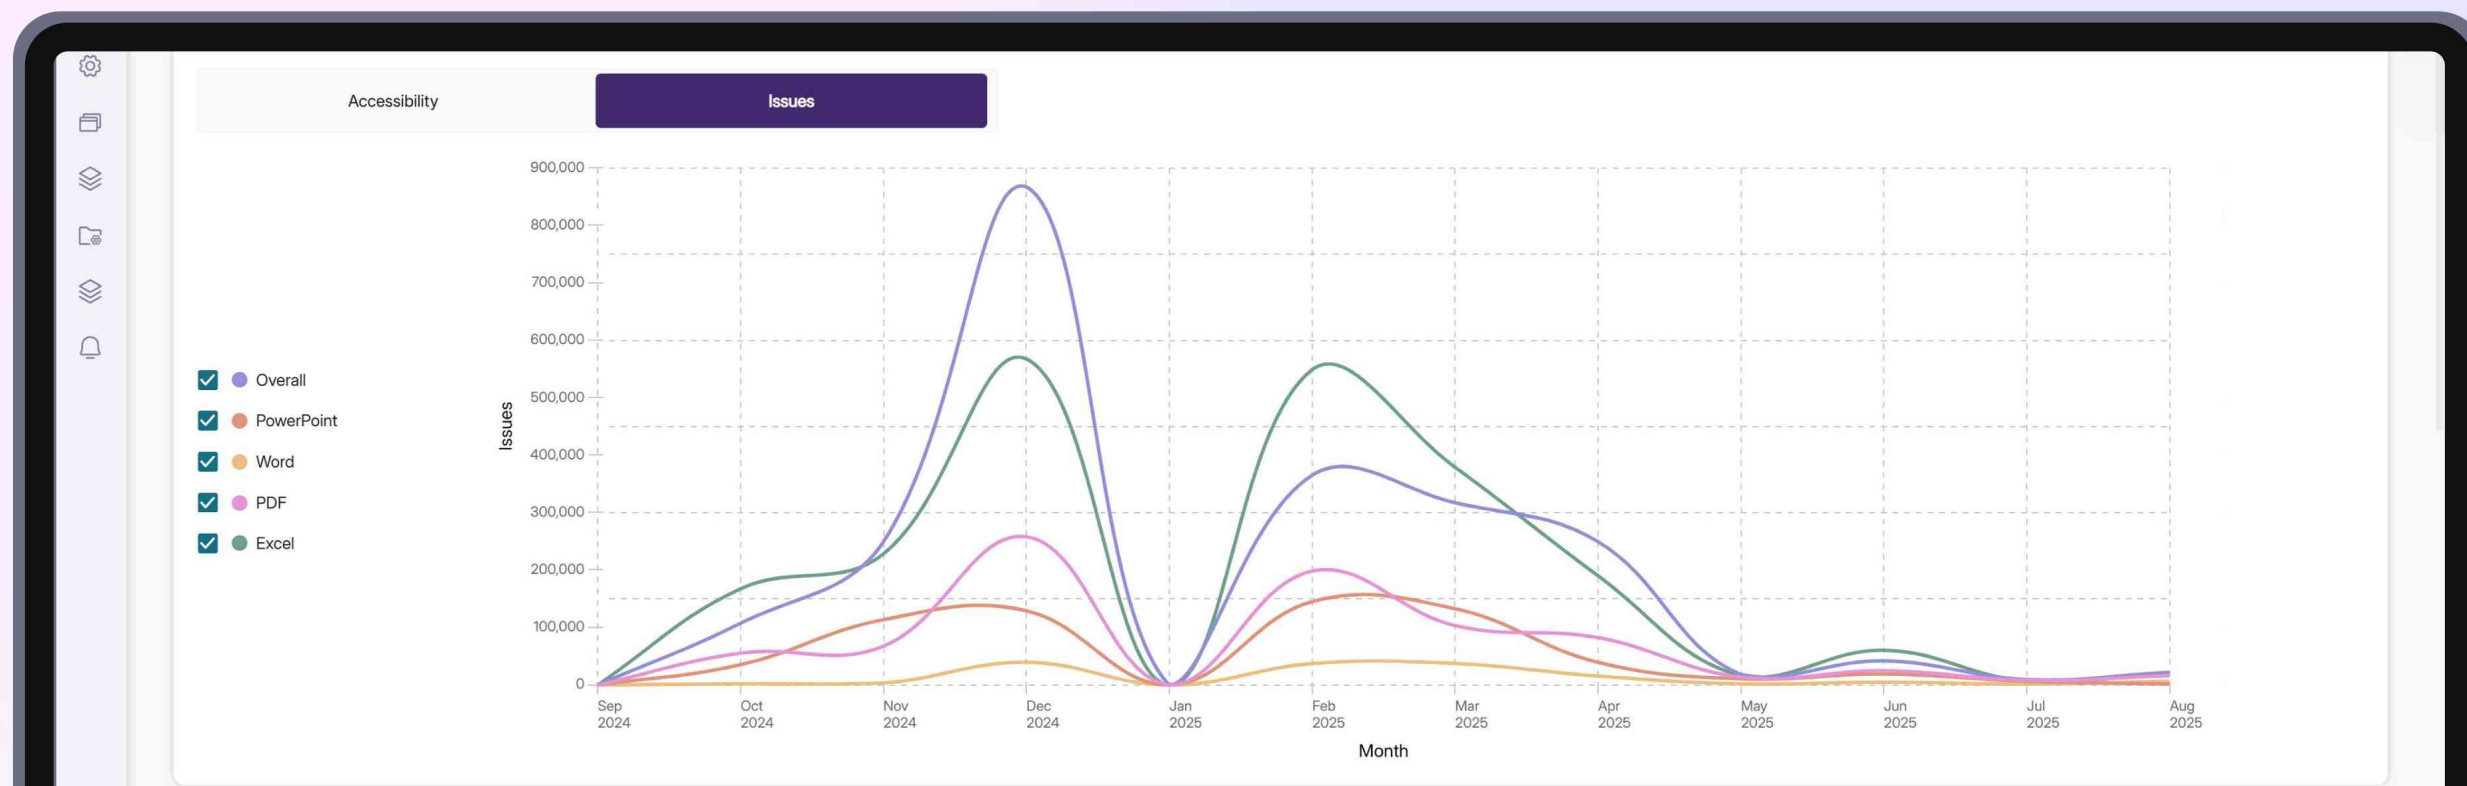

More than 1 in 4 adults (28.7%) in the United States has a disability that impacts their daily life, the CDC reports. For many, the web isn't just convenient—it's essential for work, education, healthcare, and social connection.

Yet 94.8% of websites fail to meet basic accessibility standards, the WebAIM Million report states, creating unnecessary barriers that exclude millions of users. **The average website has 51 accessibility errors per page.**

ADA, Section 508, and WCAG compliance isn't optional; it's required by law. The bottom line? Organizations can't ignore web and app accessibility.

Ultra Dynamic Our Mission

Our mission is to assess and improve accessibility in educational institutions, ensuring that all students can thrive in an inclusive learning environment. We work with schools, universities, and other educational organizations to identify barriers to accessibility and provide practical solutions.

Accessibility Audits:

Comprehensive assessments to identify and eliminate barriers in educational environments.

Training and Workshops

Interactive sessions to empower educators and promote inclusive practices.

Consultation Services

Expert advice and ongoing support to implement effective accessibility strategies.

The screenshot displays the 'AutoPilot Remediation' interface within a 'Websites' application. The interface shows a list of HTML elements with line numbers and their corresponding code. Accessibility issues are highlighted in red, and suggested improvements are highlighted in green. The interface includes a 'Back' button, a 'HTML View' toggle, and a 'Preview' button. The code is organized into sections separated by comments like '@@ -126,11 +126,11 @@'.

Line	Code	Issue	Suggestion
126	<div class="grve-logo grve-position-left">		
127	<div class="grve-wrapper">		
128			
129			
130		Alt text is missing or incorrect	
131		Alt text is missing or incorrect	
132		Alt text is missing or incorrect	
133			
134	</div>		
135	</div>		
136	<!-- End Logo -->		
203	<!-- Logo -->		
204	<div class="grve-logo grve-position-left">		
205	<div class="grve-wrapper">		
206			
207		Alt text is missing or incorrect	
208			
209	</div>		
210	</div>		
211	<!-- End Logo -->		
265	<!-- Logo -->		
266	<div class="grve-logo grve-position-left">		

The screenshot displays the YuJa Document Engine interface. At the top, a 'Document Score' section shows a circular progress indicator at 58% and a 'Documents Score' of 4. Below this is a search bar labeled 'Search by document name'. A list of documents is shown, each with a score and a 'View' button:

Document Name	Score	Action
Research Paper.docx	67%	View
Literature Review.pdf	62%	View
Thesis Guidelines.docx	63%	View
Institution Guidelines.pptx	38%	View

An 'Alternative Formats Menu' for 'Research Paper.docx' is open, showing various options:

- Accessibility Report (67%)
- Source File
- PDF
- Text File
- Immersive Reader
- Gradient Reader
- EPUB
- Audio Podcast
- OCR Formats
- Language Translations
- Braille Formats
- CustomAccess Formats

At the bottom of the menu is a 'Help' link.

Multi-CMS Platform Integration

The screenshot displays the YuJa EqualGround interface, which integrates with various CMS platforms. The main editor shows a 'Homepage' being edited, with a preview of the website content. The preview includes a navigation menu (HOME, PRODUCTS, SERVICES, ABOUT, RESOURCES, NEWS, FAQ, PRICING, REVIEWS) and a main heading 'Promoting accessibility in educational environments'. The 'Accessibility Issues' panel on the right provides a detailed overview of accessibility compliance, including scores for WCAG criteria (A, AA, AAA, ARIA, ABP) and a list of specific issues requiring manual verification.

Issue Type	Score	Count
A	84%	10
AA	80%	13
AAA	78%	23
ARIA	98%	2
ABP	99.99%	6

Search by issue type: [Search bar]

- 1.1 Text Alternatives
 - 1.1.1 Non-Text Content: 5
- 1.2 Time-based Media
 - 1.2.2 Captions (Prerecorded): 2
- 1.3 Adaptable
 - 1.3.4 Orientation: 1
- 1.4 Distinguishable
 - 1.4.10 Reflow: 1
 - 1.4.3 Contrast (Minimum): 3
 - 1.4.6 Contrast (Enhanced): 0

These issues require manual verification to ensure accuracy.

- > 1.3.4 Orientation
- > 1.4.4 Resize Text
- > 1.4.10 Reflow
- > 2.2.1 Timing Adjustable
- > 2.4.1 Bypass Blocks
- > 2.4.2 Page Titled
- > 2.4.5 Multiple Ways
- > 2.4.8 Location
- > 2.4.10 Section Headings
- > 3.1.1 Language of Page
- > 1.4.12 Text Spacing
