

YuJa FeedbackFlow Assessment Module

Interactive Video-Based Feedback Solution

The screenshot displays the YuJa FeedbackFlow Assessment Module interface. At the top, the user's name "Thomas Edwards" is shown, along with progress indicators: "1 Questions", "4/4 Points", and "In Progress". A progress bar below these indicators is filled to 100%. The question being assessed is "Q1 Provide another example of an Exothermic Reaction and explain how it works.", which is worth 4 points and has a "Clarification Required" status. The interface is split into two main sections: "Student Response" and "Video Question".

The "Student Response" section features a video player showing a young man speaking. Below the video is a "Rubric Evaluation" section for "1. Critical Thinking", with the instruction "Evaluating critical thinking in a student's answer to a question." There are four radio button options for evaluation: "Needs Improvement" (1 Point), "Fair" (2 Points), "Good" (3 Points), and "Excellent" (4 Points). The "Excellent" option is currently selected.

The "Video Question" section is partially visible, showing a "Discussion" panel. This panel has a "Resolve" button and a list of comments from other users: Emma Allen ("Great explanation of the reaction and heat transfer."), Bruce Phillips ("Consider adding more detail on the activation energy."), Jordan Lee ("Can you connect this example to real-world applications?"), and Thomas Edwards ("Yes, I'll add that connection. Thank you!"). A text input field at the bottom of the discussion panel is labeled "Type your comments here..." and has a "Post" button.

Empower Interactive Experiences for Students

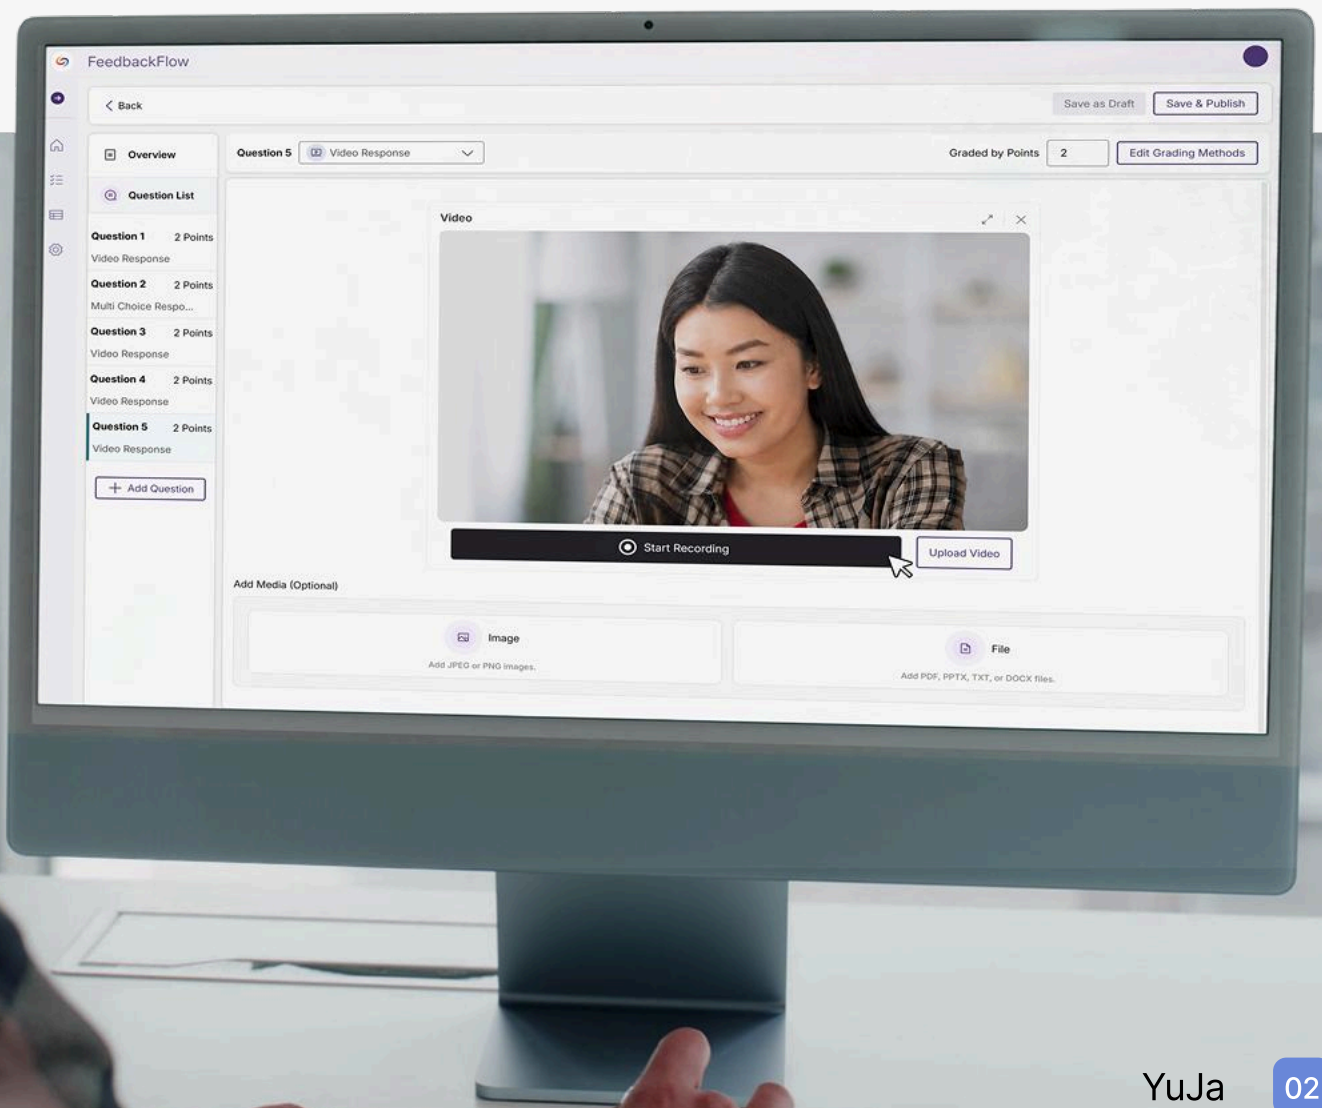

YuJa FeedbackFlow, an all-encompassing video-based assessment platform, is developed for these educational institutions and corporate training scenarios. With built-in tools that prioritize interactive teaching methods, YuJa FeedbackFlow scales teaching efforts for flipped classrooms across your organization.

Boost Real-Life Competency

Create video-based assessments that help students practice critical thinking and problem solving.

Provide Coordinated Feedback

Encourage students to iterate on their performance by delivering constructive feedback and encouraging discussion.

Video Learning Activities

YuJa FeedbackFlow bridges the gap between education and real-life experience by incorporating everyday scenarios and promoting active learning styles rather than relying on passive, static lectures. With a split-screen assessment interface, participants can respond to questions while reviewing instructor videos and rubrics without scrolling.

Conduct Mock Interviews

Using recorded responses, simulate a real-world interview experience where participants are prompted on the spot.

Prepare for Practicums

Transform theory-based learning into active, collaborative scenarios to prepare for practical job placements.

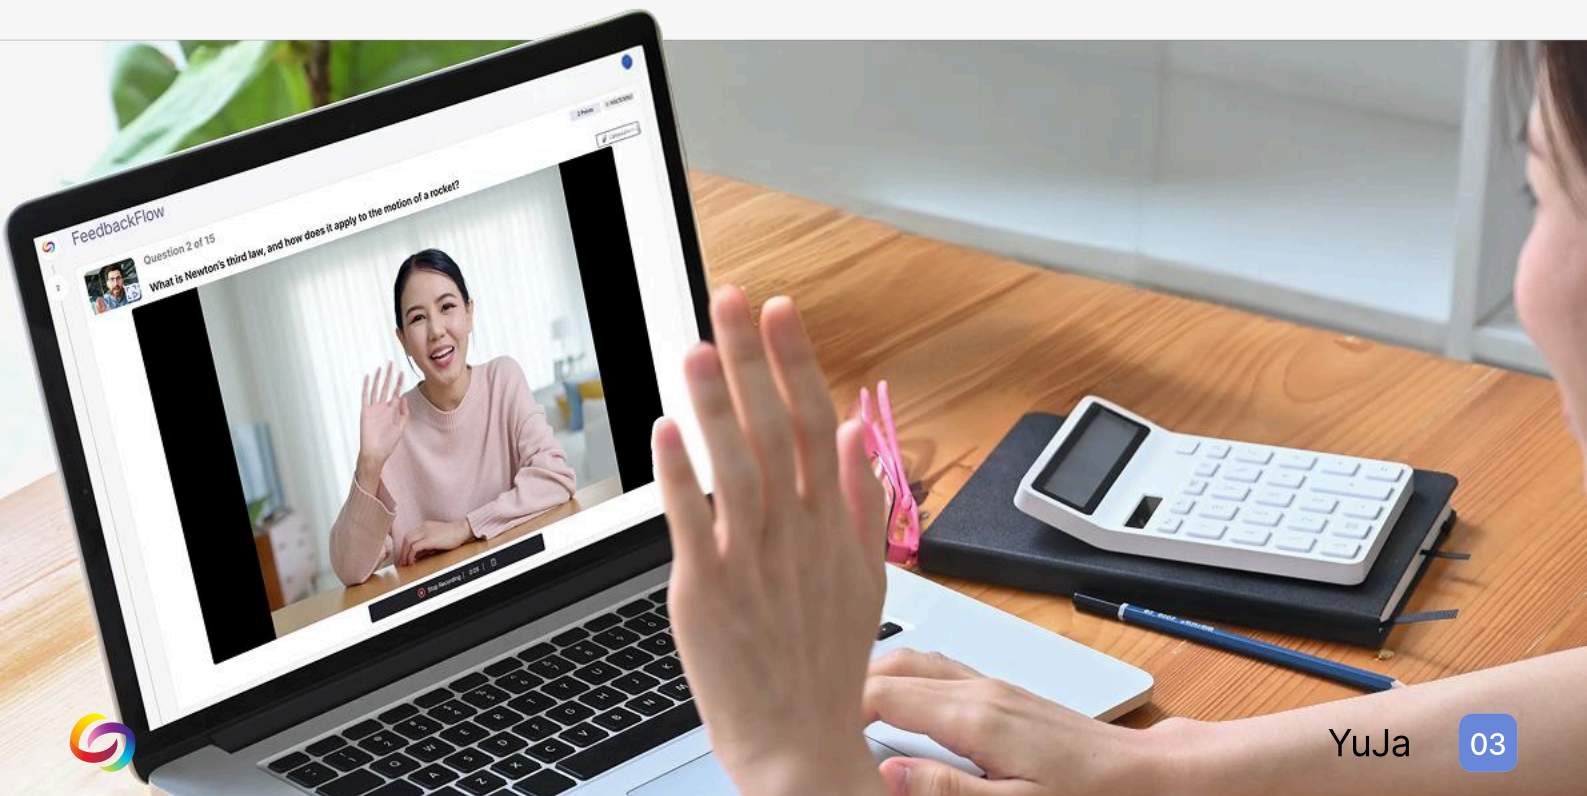

Practice Public Speaking

Practice speaking aloud without an audience to cultivate public speaking and presentation skills for the future.

Improve Holistic Understanding

Deepen the understanding of study topics using other question types like multiple choice and short answer.

Dynamic Group Assessments

To simulate a real-life group experience, YuJa FeedbackFlow lets you assign students to groups to complete assessments together.

Customize Group Size

Manually set a specific group size for your assessment. Easily increase or decrease group size to accommodate all students.

Assign Students Manually

Add students individually using an intuitive interface that helps you visualize the distribution of students across groups.

Randomly Assign Groups

Save time and ensure fairness by letting YuJa FeedbackFlow randomly sort students into groups.

Set Up Groups for Your Assessment

Assign students to groups manually or automatically.

Actionable Evaluation and Feedback

Designed to foster improvement and track student progress, YuJa FeedbackFlow allows both instructors and students to provide constructive feedback. Students can leverage peer reviews and detailed instructor comments to iterate and elevate the quality of their work.

Peer Reviews

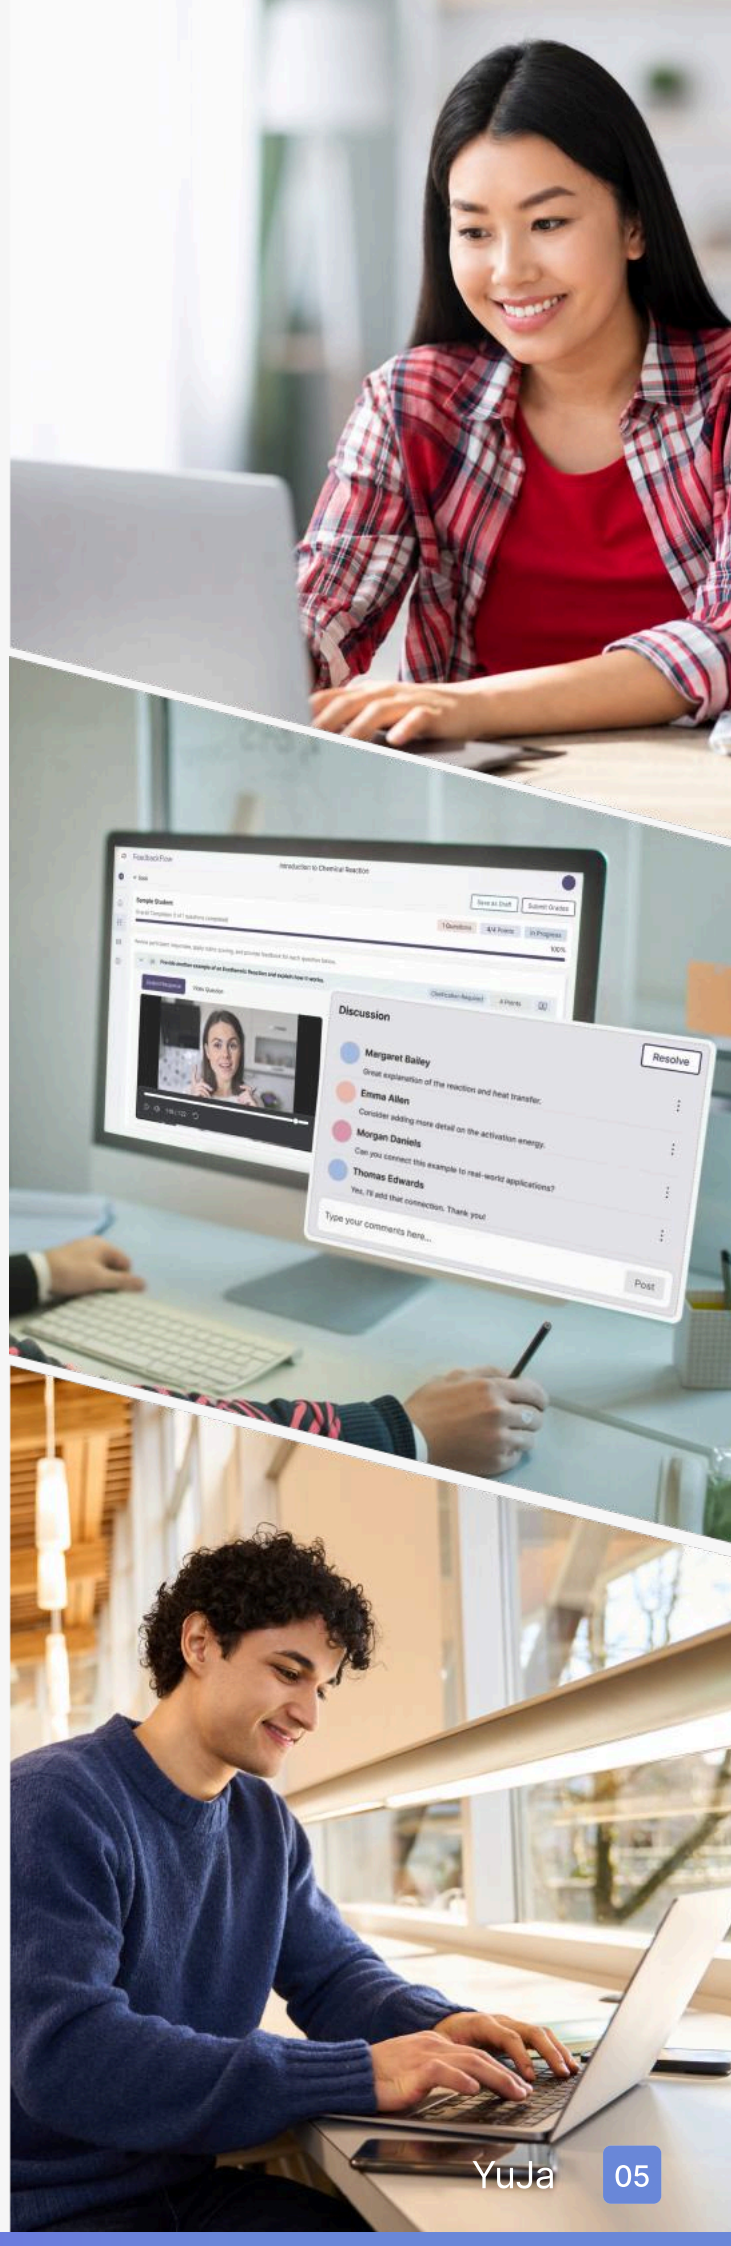

Students can be assigned to different responses for peer review before the instructor administers the final grade.

Instructor Reviews

Instructors can leave comments for each question to provide targeted feedback and solidify understanding.

Open Discussions

Instructors can seek clarification and provide students with an opportunity to explain their responses before final grades are issued.

Consistent Success Criteria

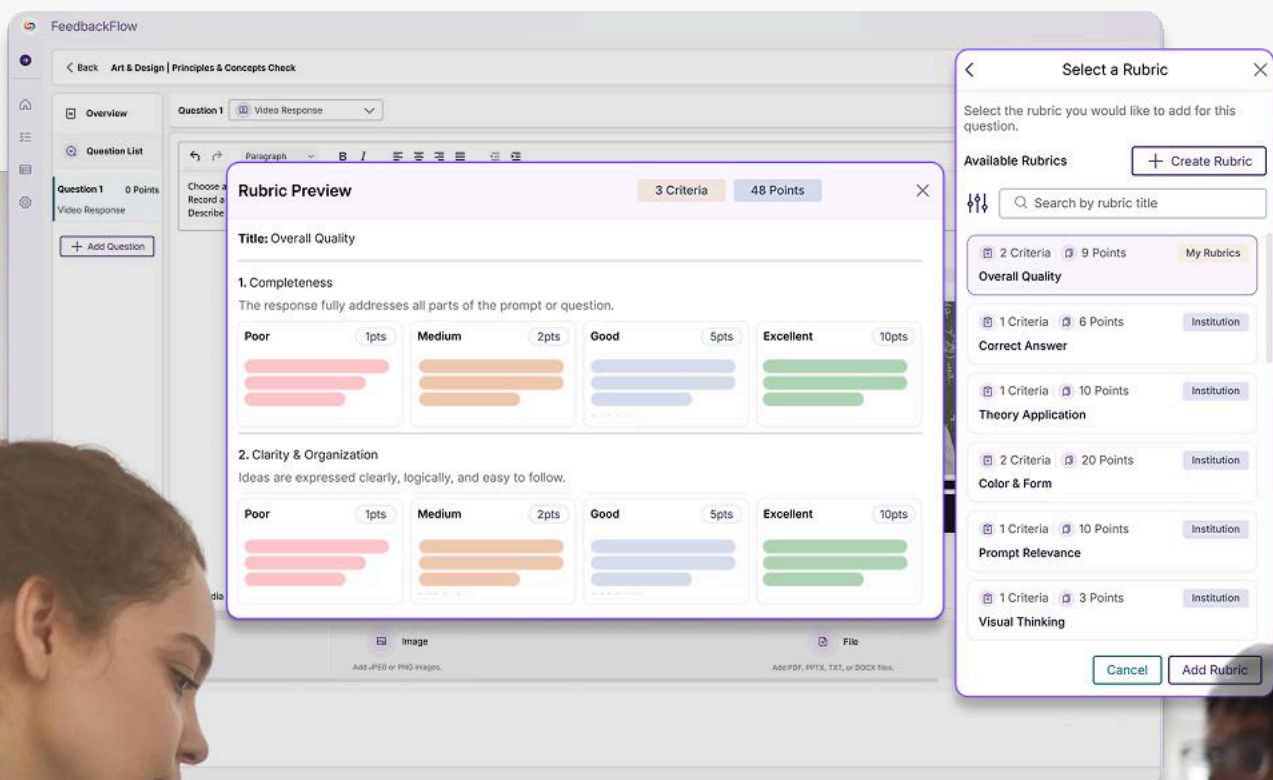

Evaluation can be arduous and time consuming. YuJa FeedbackFlow lets you clearly describe, standardize, and communicate the definition of success in your class using customizable rubrics.

Establish Assessment Expectations

Set objective goal posts with clear descriptions and points to outline how students should meet expectations.

Evaluate Students Consistently

Maintain consistent grading standards for students by reusing standardized rubrics across your courses and institution.

Seamless LMS Integrations

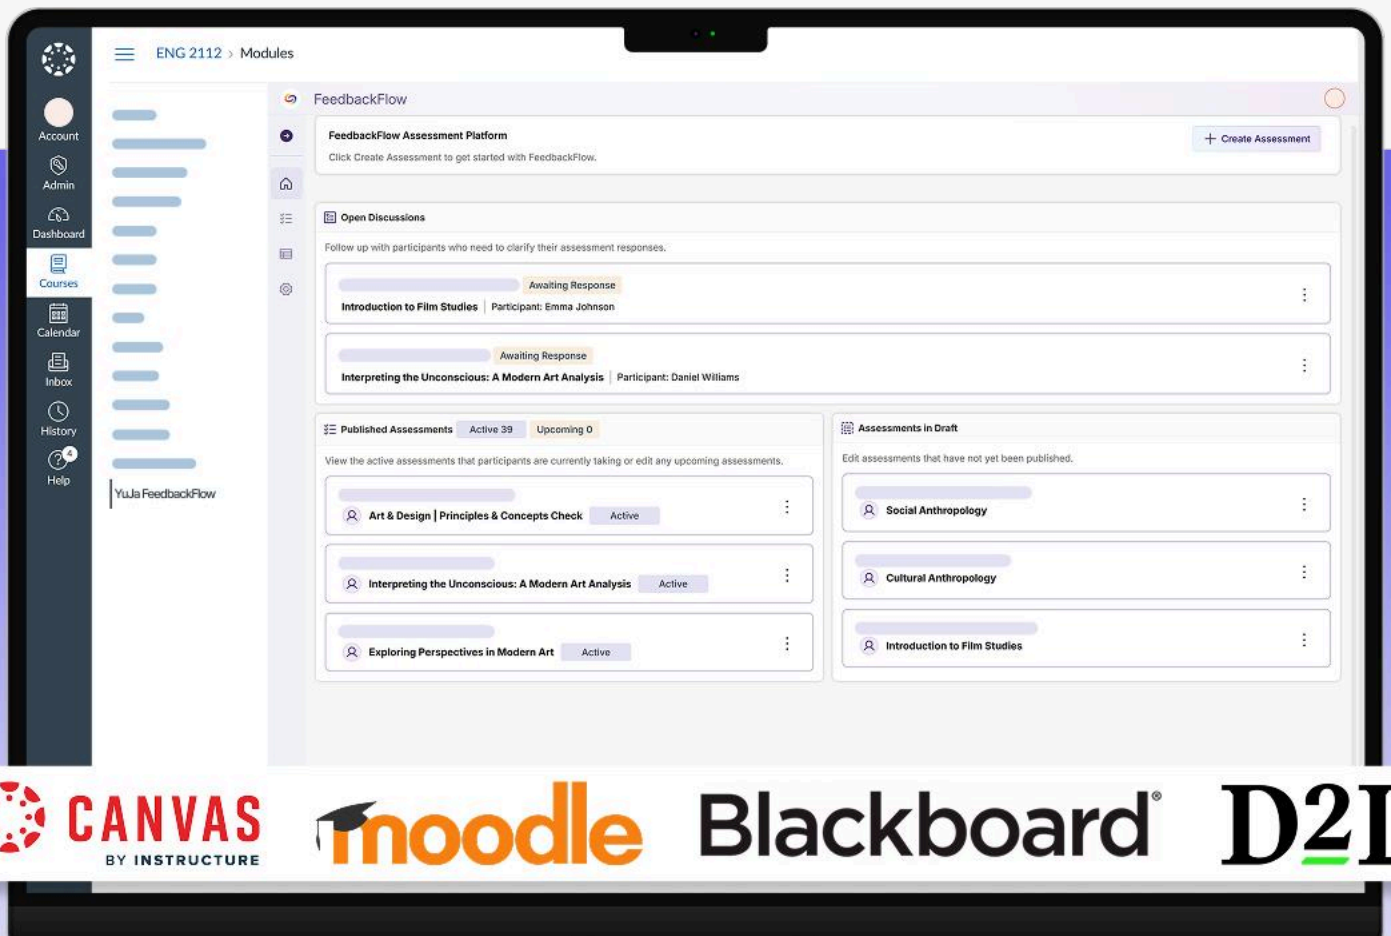

YuJa FeedbackFlow integrates with all major LMSs, including Canvas, Moodle, D2L Brightspace, and BlackBoard, allowing students to enhance their digital learning experience. With secure integration options via LTI 1.3 and API, integration is simple and efficient, letting you and your students access YuJa FeedbackFlow's features with limited barriers.

Automatic Synchronization

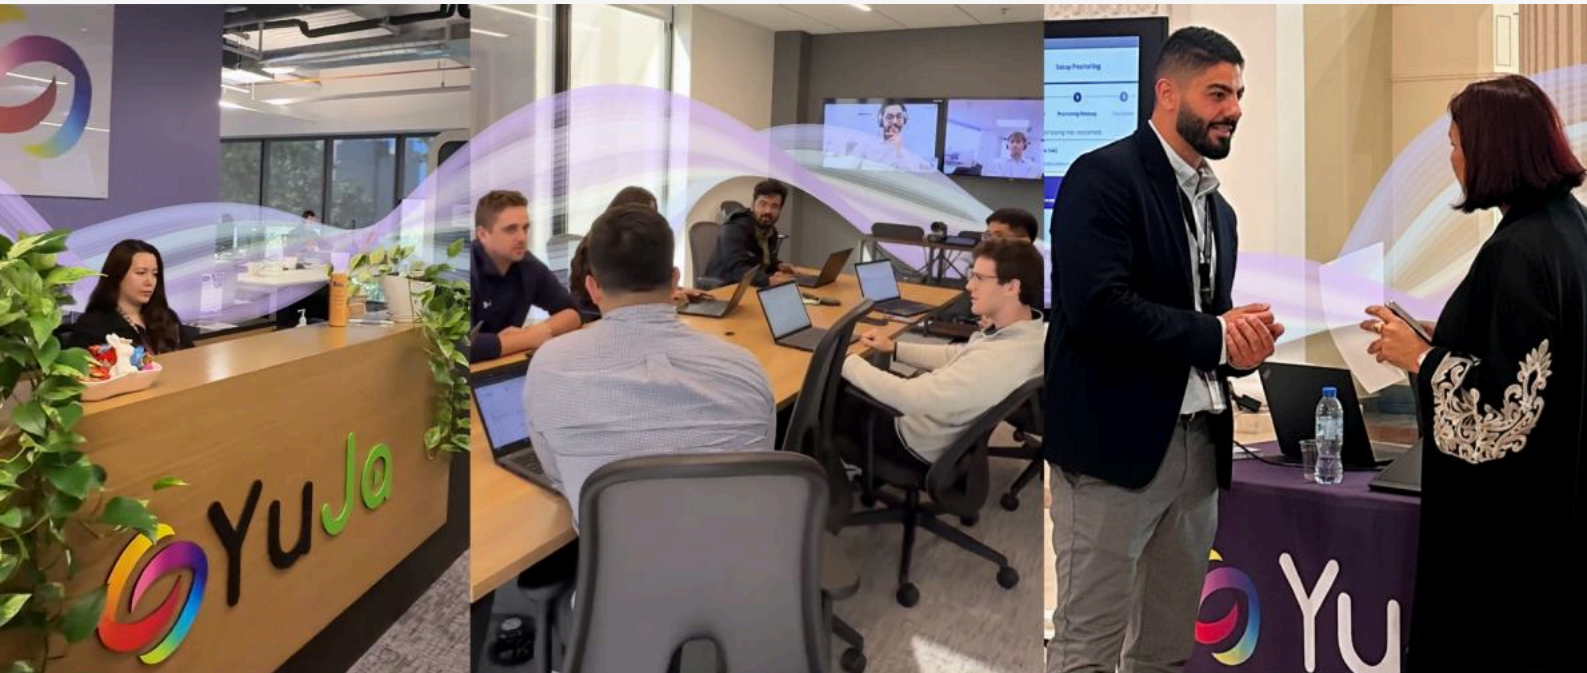

Automatically sync user accounts, course enrollments, and assessment results with your LMS.

Unified Configuration

Configure settings for your assessments, rubrics, and groups, all in one location.

Get in Touch with Us

YuJa offers digital compliance platforms and applications. We encourage you to reach out to a Solutions Expert who can advise on a solution that meets your organization's needs.
