

# YuJa Website Accessibility Widget

Empower Your Users with Personalized Viewing Controls

The screenshot shows the YuJa website interface with the 'Website Accessibility Widget' overlaid on the right side. The website has a navigation menu with items like HOME, PRODUCTS, SERVICES, ABOUT, RESOURCES, NEWS, FAQ, PRICING, REVIEWS, and CONTACT. Below the navigation is a category menu with 'ALL' selected, followed by LIFESTYLE, PHOTOGRAPHY, DESIGNS, TECHNOLOGY, TRAVEL, and FORMATS. The main content area features two article cards. The first card is titled 'Accessibility in Action: Beyond Compliance' and is dated Oct 22, 2025. The second card is titled 'WCAG Made Simple: From Beginner to Pro' and is dated Sept 30, 2025. The accessibility widget is titled 'Website Accessibility Widget' and has a close button (X). It contains four tabs: Adjustments, Preferences, Profiles, and Formats. The 'Adjustments' tab is active and shows three sub-sections: Summary, Color Adjustments, and Content Adjustments. Under 'Summary', there is a section for 'Accessibility Profiles' with a list of profiles: Visually Impaired, Motor Impaired, Color Blind, Dyslexia, Cognitive & Learning, ADHD, and Seizure & Epileptic, each with a toggle switch. Below this is the 'Color Adjustments' section, which includes sliders for 'Text Color' and 'Title Color'. At the bottom of the widget, there are 'Reset' and 'Save' buttons, and a 'Powered by YuJa' logo.

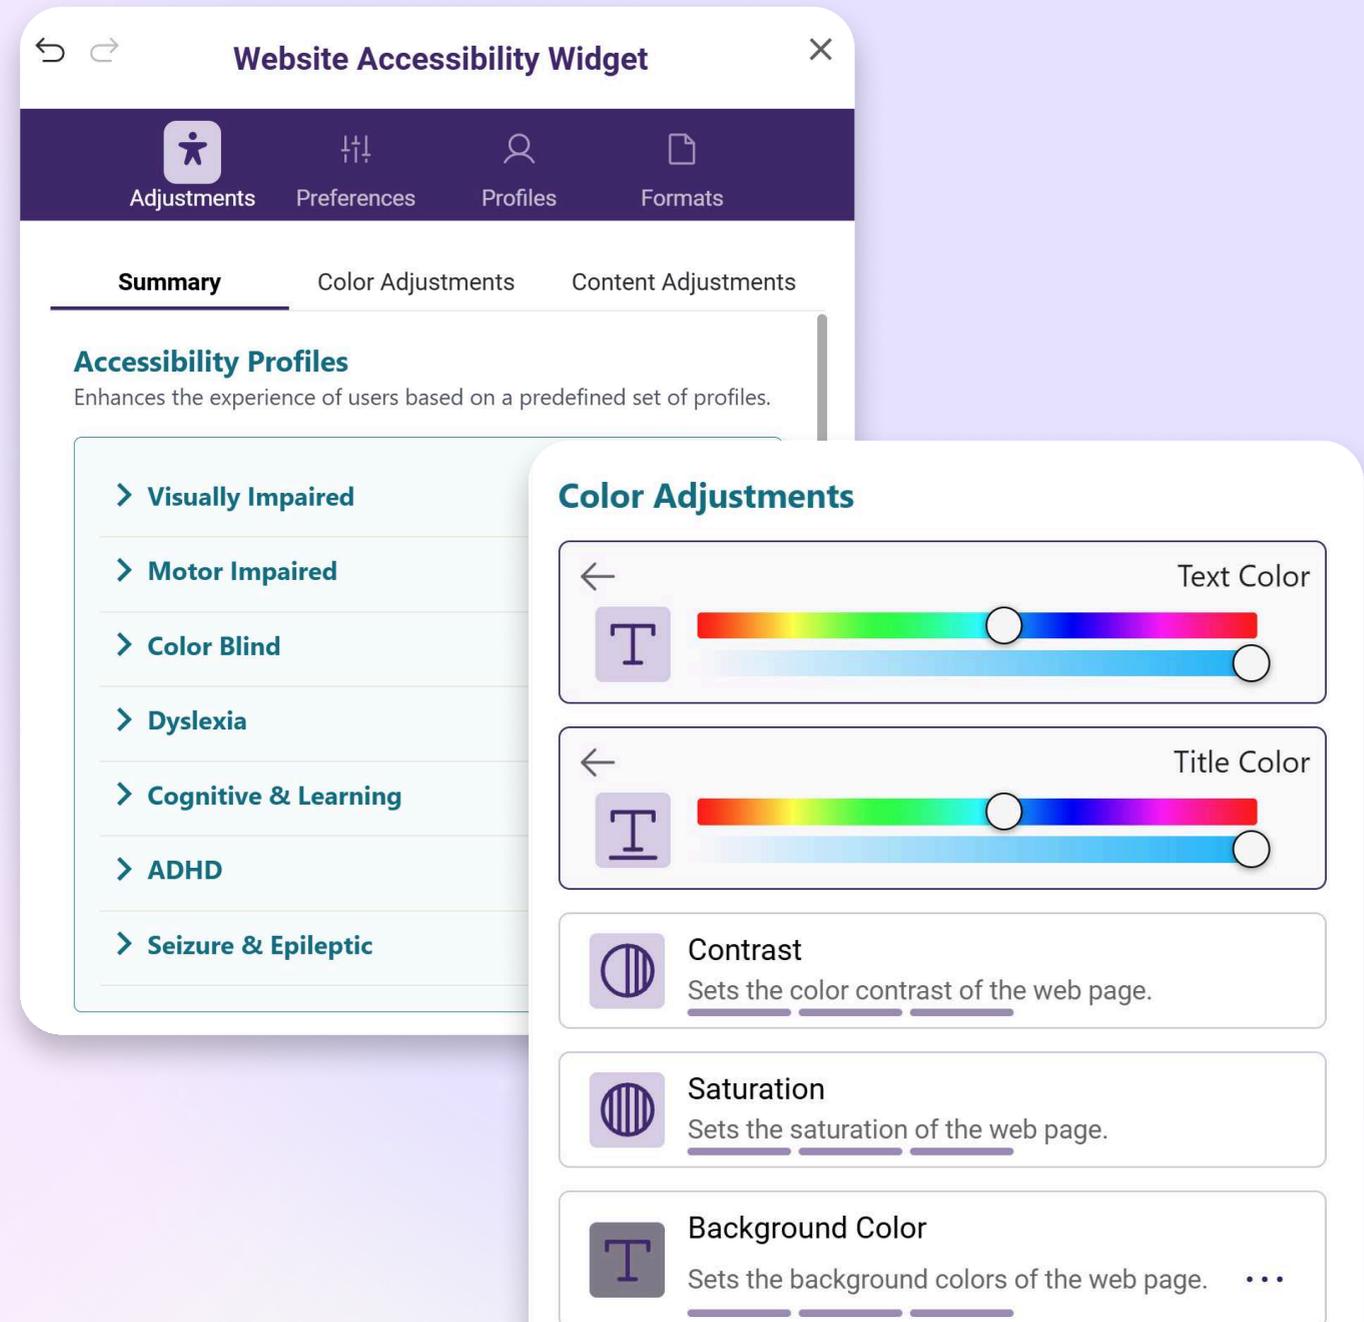

# Personalize the Digital Experience

YuJa's Website Accessibility Widget provides users with tools to personalize their digital content experience. It enables real-time adjustments like changing text size, spacing, and contrast to make information easier to read and interact with.

The widget complements accessible design, semantic HTML, and remediation by acting as a presentation layer that enhances usability without interfering with assistive technologies.

It aligns with major accessibility frameworks and complements ongoing compliance efforts under WCAG, ADA, and Section 508 standards.

# Put Users in Control

Give users what they need to easily navigate your website with flexibility to meet visual, cognitive, and other needs.

Adjustable text size, spacing, alignment, and line height

Customizable contrast and color filters

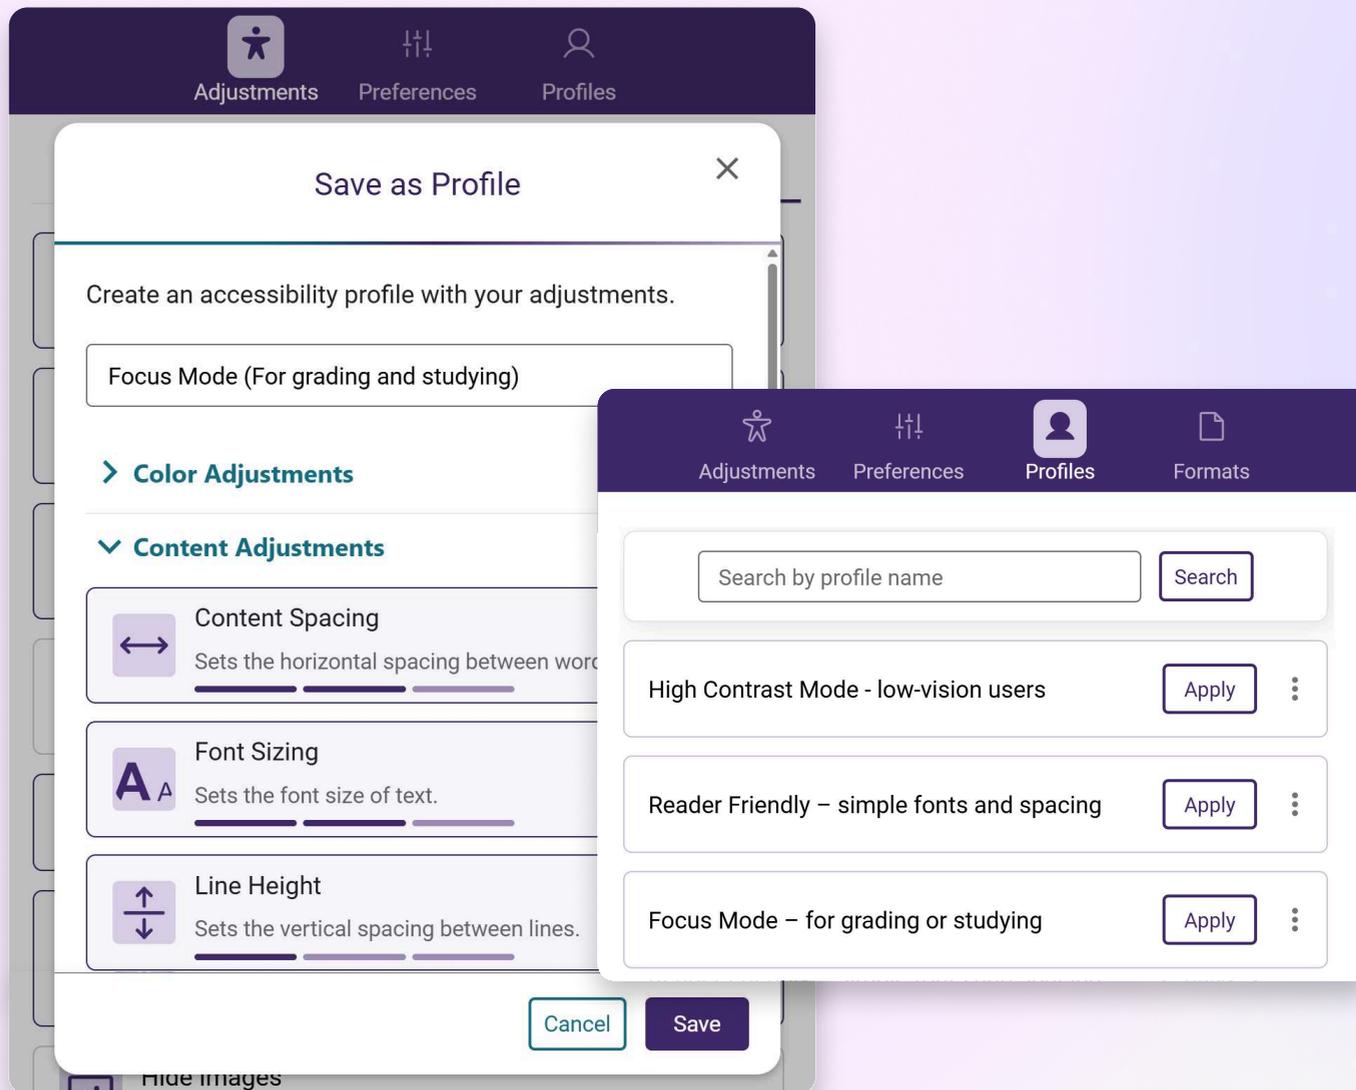

Changes persist across sessions for a consistent experience

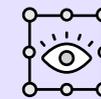

The screenshot displays the YuJa Website Accessibility Widget interface. At the top, there are three tabs: 'Adjustments' (selected), 'Preferences', and 'Profiles'. Below these, there are three sub-tabs: 'Summary', 'Color Adjustments', and 'Content Adjustments' (selected). The 'Content Adjustments' section includes four settings: 'Content Spacing' (horizontal spacing between words), 'Font Sizing' (font size of text), 'Line Height' (vertical spacing between lines), and 'Letter Spacing' (horizontal spacing between letters). The 'Color Adjustments' section includes three settings: 'Contrast' (color contrast of the web page), 'Saturation' (saturation of the web page), and 'Color Blind Filters' (alters web page colors to improve accessibility for color blindness). Each setting has a corresponding icon and a progress bar.

# Select a Profile or Create Your Own

Select from a predefined list of profiles or create and save your own. One-click accessibility profiles provide instant customizations, making personalization quick and intuitive for all users.

Pre-configured visual impairment settings

Cognitive accessibility profiles

Switch between profiles as needed

Create and save custom profiles

# Support Diverse Cognitive Needs

Support learners with ADHD, dyslexia, and other cognitive needs with visual and cognitive aids that help users focus on content more effectively.

Reading masks reduce visual clutter

Reading guides help users focus line by line

An enlarged cursor improves tracking

Pause animations to minimize distractions

## Accessibility Profiles

Enhances the experience of users based on a predefined set of profiles.

> Visually Impaired

> Motor Impaired

> Color Blind

> Dyslexia

> Cognitive & Learning

> ADHD

> Seizure & Epileptic

## Content Adjustments

Readable Fonts

Sets an easy-to-read font for the web page.

Pause Animations

Stops all animations on the web page.

Reading Mask

Helps to focus on the specific area of the web page while reading.

Font Sizing

Sets the font size of text.
